BIBLIOGRAPHY ON WESTERN RANGE FORAGE PLANTS

For sometime a bibliography on western forage plants has been needed. The reference list should be of material assistance to the student in the range forage course. It is believed that the list is complete enough to give one a good working knowledge of the western range forage plants. Other publications are listed that contain other factual information relating to range forage plants.

Much credit is due three range management seniors in assisting in the compilation of the reference list.

I. TALL AND SHORTGRASS REGIONS

McQuilkin, W. E. Western wheatgrass, bromegrass, and slender wheatgrass. Reprint from "Western Range Administration." University of Nebraska, Lincoln, Nebraska. 1935. Very good.

Savage, D. A. Grass culture and range improvement in the Central and Southern Great Plains. U.S.D.A. Cir. No. 491. 1939.

Inflorescence variations in buffalo grass. Reprint from Jour. of Am. Soc. of Agronomy. Vol. 32, No. 4, 1940.

II. ROCKY MOUNTAIN AND SOUTHWEST REGIONS

Costello, D. F. Inter-agency Committee - check list, palatability table and standard symbol list of Colorado and Wyoming Range Plants. Mimeo. 1937.

Kutzleb, C. A. A descriptive key to the genera or in some instances, species of plants included in the range plant handbook. Forest Service, Region 2. Good for identification.

III. INTERMOUNTAIN REGION

IV. PACIFIC COAST REGION

Sampson, A. W. Important range plants: Their life history and forage value. U.S.D.A. Bull. 545. 1917.

Native American forage plants. John Wiley and Sons, 1924.

V. U. S. DEPT. OF AGRICULTURE AND OTHER AGENCIES

Excellent.

Sampson, A. W. Important range plants; their life history and forage value. U.S.D.A. Bull. 545. 1917.

VI. MISCELLANEOUS

Jarvis, Joe W. Strawberry clover. Union Pacific Railroad Pub. 1939.

N. W. Nelson
Professor of Range and Pasture Management
