migrate to midtown

migrate to midtown

# Everything under the moon

## **Artist Statement**

### **Chris Newpher**

After many years in restaurant management I recently earned my Bachelor's degree in graphic design. I am excited about finding a career for which I can use my creative skills and business background. I am eager to learn and grow with a company like yours given your specialization in illustrative communication.

My personal approach to design is to explore creative options and create designs that will do the most work for the client. With my combined background in customer service and the arts I know how to work with many types of clients. I also enjoy working as a team member on projects.

I currently live in Fort Collins, Colorado but would be excited to move with my family to meet the needs of the job. Please take some time to look at my portfolio and let me know if you have any questions or if you would like to learn more about my approach to design. I know that my artistic skills will be a great addition to your studio and am eager to prove that to you.
