ARE A WAR'S
BEST FRIEND**

Artist Statement

Hannah Thompson

Growing up all I ever wanted to be was an artist. Coming from a family of all artists, art was all I ever knew, from painting to craft making I was consistently surrounded by creative people. Falling in love with every medium, painting drawing, photography, as well as jewelry making, I was always creating something. Once I was old enough to get onto a computer I discovered the world of Graphic Design and from there on I knew that was what I wanted to do. When starting college I took my beginning graphic design class to learn more about making art through this medium and becoming a better artist. From my first graphic design class to my final one here at Colorado State University I have grown so much as a designer and as an artist. Throughout the years I have gained knowledge and experience in designing logos, letterheads, posters, info---graphics, newspaper and magazine layouts, web design, packaging and much more. I aspire everyday to stay true to my self through my design and add the art elements that I have learned throughout my life to everything I create. My goal to becoming a strong designer with the skills in art as a well as establishing relationships with professionals was accomplished through the years at Colorado State University. With this knowledge I hope to have a career as a Graphic Designer with a company I am passionate about involving fashion, art or the outdoors.

	<u>Title</u>	<u>Media</u>	<u>Original Format</u>
