Artist Statement
Jordan Tate

As an artist my work is always a reflection of my beliefs and my life in general. I work through several different mediums of art and feel the same way while using them. I feel a sense of relaxation. Art is my therapy. I enjoy digital art more so than other mediums because I feel like there are more possibilities to represent your art and the ideas that inspired it. Digital art also allows you to combine other mediums of art, which could add a lot of depth to one’s work. For me art is a lifestyle and I hope that everyone who sees my art is also able to see my passion for it.
