Overview
This portable document file (.pdf) is part of the Colorado Agriculture Bibliography project and includes bibliographic information on a variety of topics related to Colorado’s agricultural and rural past. The topics covered in this project are varied but include agriculture, education, water, mining, tourism, recreation, and more. The bibliography contains information about but not full-text for books, journals, dissertations, theses, archival collections, maps, photos, pamphlets, and more.

The Web site and bibliography reflects Colorado’s contribution to the Preserving the History of United States Agriculture and Rural Life Project. This nation-wide effort aims to identify and preserve state and locally significant literature. The project involves the National Endowment for the Humanities (NEH), Cornell University, the United States Agricultural Information Network (USAIN), the National Agricultural Library (NAL), and other land-grant universities.

The records in this bibliography may cover several subject areas and are listed alphabetically by author. A searchable of the bibliography is also available if you would like to create searches and find information on other topics.

The bibliography of Colorado history project was funded in part by a grant from the National Endowment for the Humanities (NEH). The project is part of the United States Agriculture Information Network (USAIN) Preservation Program. Cornell University coordinated the grant project.

______ J. S. o. R. N. Y. Watson. (1878). [Diary]. [93] p. ; 19 cm. Holograph diary kept by hunter, birder, and amateur naturalist J.S. Watson of Rochester, New York, concerning trips to Florida and Colorado, 1878-1880. The author lists Florida sea and game birds he observed and shot, discusses hunting alligators and fishing, and describes hunting bear and elk in Colorado. 46 pages of the journal are devoted to Watson's trip to Florida's Homosassa River and Cedar Keys with his cousin Charles A. Watson, during which Charles was killed in a boating accident. Watson details the hours he and his companion spent clinging to their capsized boat until Charles, too weak to hold on, slipped off and perished. Watson also describes the difficulties of locating and retrieving Charles's body and his problems with local inhabitants. Reddish-brown roan, ruled pages. J.S. Watson.
