Colorado Agriculture Bibliography 2005
A Bibliography of Primary and Secondary Material Published 1820-1945

Agriculture and Natural Resources
Type of Materials: Monographs

Produced by the Colorado State University Libraries
Copyright by Colorado State University Libraries Applies

Overview
This portable document file (.pdf) is part of the Colorado Agriculture Bibliography project and includes bibliographic information on a variety of topics related to Colorado’s agricultural and rural past. The topics covered in this project are varied but include agriculture, education, water, mining, tourism, recreation, and more. The bibliography contains information about but not full-text for books, journals, dissertations, theses, archival collections, maps, photos, pamphlets, and more.

The Web site and bibliography reflects Colorado’s contribution to the Preserving the History of United States Agriculture and Rural Life Project. This nation-wide effort aims to identify and preserve state and locally significant literature. The project involves the National Endowment for the Humanities (NEH), Cornell University, the United States Agricultural Information Network (USAIN), the National Agricultural Library (NAL), and other land-grant universities.

The records in this bibliography may cover several subject areas and are listed alphabetically by author. A searchable website of the bibliography is also available if you would like to create searches and find information on other topics.

The bibliography of Colorado history project was funded in part by a grant from the National Endowment for the Humanities (NEH). The project is part of the United States Agriculture Information Network (USAIN) Preservation Program. Cornell University coordinated the grant project.
1. _______ (1910). *20,000 irrigated acres: within sight of Denver's capitol dome*. Denver, Colo.: Denver Suburban Homes & Water Co. 18 p. Brochure promoting agriculture in Denver, Colorado. ill., 27 cm. Contains a map of the Castlewood Reservoir District. "Dairy and hog ranches, small grains, alfalfa, potatoes, sugar beets, vegetables, garden truck, small fruits, orchard fruits, all within easy reach of Colorado's biggest market center."
   - Agriculture -- Colorado -- Maps.
