Red Feather Lakes, CO 80545

Dear Robert,

Thank you for the Colorado Forest Restoration Grant application you submitted to support the 2012 Colorado House Bill 1032, which helps address Colorado forest watershed restoration issues. The number and quality of grant applications we received for this round of funding was extensive. The Colorado State Forest Service received 57 applications requesting over \$3.3 million. Through a competitive process within the State of Colorado only 55 of the applications were eligible to compete for available funds. Unfortunately, the 55 applications totaling more than \$3.1 million in funding requests exceed the \$937,089 of available funds. As a result, we are unable to fund your proposal.

There are various reasons why projects are not funded. This is a sample of common explanations and is not an all-inclusive list. Additionally, not all reasons may apply to your proposal and there may be a combination of reasons that apply to your proposal.

- Limited funds available
- Proposal does not meet all eligibility criteria, such as cost-share
- Efficacy in addressing the additional objectives of the grant program
- Effectiveness in addressing the elements within the narrative sections of the application form.

I am available to discuss your proposal specifically. You may contact me at 970-491-6303 or [naomi.marcus@colostate.edu](mailto:naomi.marcus@colostate.edu).

We encourage you to visit <http://csfs.colostate.edu/pages/funding.html> for available funding opportunities.

On behalf of the Colorado State Forest Service, thanks again for your interest in assisting with forest restoration in Colorado. I look forward to hearing from you again in the future.

Sincerely,

Naomi J. Marcus  
Forest Management Division  
Assistant Staff Forester

Diamond Creek Road Association

Dear Bill,

Thank you for the grant application you submitted for the HB09-1199 Colorado Fuels Mitigation program. The number and quality of grant applications we received for the first round of funding was impressive. Unfortunately, the 38 applications totaling \$755,000 in funding requests far exceeded the \$336,000 in funds available. As a result, we were unable to fund your proposal.

District Foresters across the state are working hard to continue to assist in the production of competitive applications. The information provided in future applications based on the criteria identified below will be instrumental in the success of projects.

- Specifically describe **how** the project will reduce wildfire risk to the public, firefighters and community infrastructure.
- Describe mitigation of risks to **communities** in addition to individual homes.
- Projects **must** have a County Wildfire Plan (CWP) and/or a Community Wildfire Protection Plan (CWPP) in place.
- Describe a **definite plan of work** with **measurable points of accomplishment**.
- Projects must demonstrate a **cooperative, community based** effort with multiple sources of support.
- Specifically describe **how project work will be maintained** after the work is completed.

We encourage you to visit <http://csfs.colostate.edu/pages/funding.html> for available funding opportunities.

Thank you for your interest in mitigating wildfire hazards in your community. Feel free to contact me if you have questions.

Sincerely,

Scott M. Woods  
Assistant Staff Forester  
Forest Management Division
