

CPW/CNHP A longstanding Partnership to Conserve Colorado's Natural Heritage

Jan 14, 2014

Colorado Natural Heritage Program

Connecting Conservation and Science

Partnership Covers Broad Range of Projects

Current Projects

- Work on Colorado's Bats including surveys for bats in abandoned mines and starting this summer, implementing the North American Bat Project to provide baseline data on Colorado's bats.
- Surveys for rare plants for the Colorado Natural Areas Program
- Boreal Toad monitoring and research to determine survival, abundance, movement and related population parameters.
- Partnership for Wetland Assessment and Strategic Conservation
- Rare species inventories on Colorado's State Parks

Current Projects

- Mapping of Colorado's Species of Greatest Conservation Need for the Western Governor's Association Crucial Habitat Assessment Tool (CHAT)
- Collaboratively working to complete a Comprehensive Review of Colorado's Wildlife Action Plan due Fall 2015 including:
 - Major Revision of Colorado's SWAP
 - Inclusion of Rare Plant Addendum
 - Climate Change Assessment for Colorado's priority habitats
