Western Sugar Co
Pender Colrado

Gentlemen

Would you people be interested in a Beet Harvest that we are working at with only two horses. It is a hard job but in some ground it may take more.

Now Gentlemen we have always here in Canada also are getting them in the US also. If you are not interested, let me know, Some Company that would be interested will send you a blue print of some...
I am the same man that you saw last year in regard to a Beet Planter I also sold it. It has worked for two years now in Beets one hundred percent. But that is on a 20 foot room can send forth five plants of money.

Had one man here from Lenton, Nebraska, here not his name at present he is a Big grocer he said he grew for the Western Sugar Corn of Denver will get in touch with him soon.

Your, Ben Hol

Dear Sir:

I wish to acknowledge receipt of your letter of May 17, regarding your beet harvester, and to advise that we shall be glad to receive the blue prints which you mention in your letter, and after looking them over, to give you our opinion regarding your machine.

Yours very truly

Geo. W. Rienks
Supervising Engineer
