Dear Sirs,

I am writing you in the hope that you may be able to provide some advice or support in the project which I am soon to embark upon. The enclosed letter outlines the North West Greenland and Ellesmere Island Expedition of which I am a member.

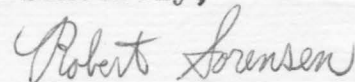

The cost of such a comprehensive expedition as this is very great. It is well beyond the means of Roger Preston Smith and I, and so its success will largely depend on the goodwill of sponsors and patrons in the public, in business, and in industry who consider the expedition worthwhile and are willing to support it.

The enclosed list of food items will be the basis of our diet during the year long venture. In exchange for any food products, we would be happy to acknowledge your support in any future books, reports and papers that will result from this expedition. You would also be welcome to use our names and refer to the expedition in any advertizing your company may undertake.

Any donations or assistance you could provide which might help to make this expedition a success would be greatly appreciated.

Thanking you,

sincerely,

Robert Sorensen
