FISCHER IS ELECTED FRESHMAN PRESIDENT

Graduate of Fort Collins High School will lead freshman class during first semester; Johnson is vice-president and Simpson is elected secretary.

On September 5, George Fischer of Fort Collins was elected president of the freshman class at the school's opening exercises. Ralph Orn, Denmark, was chosen vice-president, and Gordon Simpson also of Port Collins was chosen secretary.

Don Smith of Denver will keep the Sharpshooter team in trim for the Freshman games. Barbara Lee of Colorado Springs and Bill Davis of Loveland were chosen as other members of the class executive committee.

From the Freshman class's first meeting, it was decided to form a debating club and a literary society, both of which will be the first clubs of the class. It was also decided that the freshman class will continue some of the work of the Senior classes, particularly the work of the Sharpshooter team, and that a new band will be organized.

ENROLLMENT DROPS AS 1160 REGISTER

First day total is five percent under last year's record.

Grand total of 1222 reported on first day last year when 1222 registered for first semester work the first day and 1222 registered for the second semester.

Eighteen more students reported Tuesday morning and Monday evening. The total registration last year was 1340 and the year before it was 1350.

Many students registered with the hope of attending school but in the end some students always drop out after the second week. The drop in the registration is not as severe as expected but nevertheless it came as somewhat of a shock to the faculty.

Tuition was charged this year which was not the case last year. Other fees were about the same as last year, but the general rise in prices has made attendance more difficult for some students.

The registration got underway at 8 o'clock. It went on until about 4:30 when the last student finished signing up. The registration was handled very orderly and every student who came by was handled swiftly. Pictures of the freshmen class were taken as the students left the grip.

P.D.T. Leases

Chapter house.

Colorado Gem of Phi Delta. Fort Collins branch of Phi Delta Chi has leased 1314 S. College for the coming year.

This lease will permit the chapter house to be used by Phi Delta Chi for their meetings, as well as being the new home of the Colorado Gem of Phi Delta Chi.

Plan Six Jolly Gyms This Year

Six jolly gyms are to be held this year in the gymnasium.

The first one will be held Friday, September 14, 1935. The other four are due to come.

2. Two Engineers Fall in River

Stevenson engineering students recently found themselves in the river after a trip to the Pomona dam.

The committee had been planning two last weekend. The trip was planned for the coming week but it was postponed until after the fall in the river.

The committee found the trip to be very enjoyable and the river to be very inviting. The students had a good time and were able to relax and enjoy the outdoors.

The trip was well organized and the students had a great time. They were able to appreciate the beauty of nature and enjoy the outdoors.

The committee would like to thank the students who participated in the trip for their hard work and dedication.

The committee would like to thank the students who participated in the trip for their hard work and dedication.
Ill Winds

"It’s an ill wind that blows no good."

After the storm comes the calm. The fraternities have put their best foot forward, but we won’t last much longer. If the first time is the hardest, then what a change! Peace, friends!

It’s funny the way the first blow catches everyone off guard. The second time it’s all over when the old pals again.

We note that the machines may also be used for showing educational pictures, and we are already looking forward eagerly to the installation of talking motion picture apparatus in the room.

The pictures, we understand, are to be of the highest quality and of the best possible appearance. It will be supplanted by moving picture shows, more entertaining and more instructive.

There is a belief that the American students are more irresponsible than students in other countries. It is foremost among students to show that the political changes which affect the whole world are greatly and which are born in your own country, should earn a little importance in your life.

All this is true, yet it is hard to believe that the American student is more irresponsible than students in other countries. It is foremost among students to show that the political changes which affect the whole world are greatly and which are born in your own country, should earn a little importance in your life.

The March of Events

By Henry S. Barlow

A student from a foreign country in the course of a conversation heard one say, "We in our country take a very great interest in the things which go on in the United States. All of our newspapers feature news from this country. It seems very strange to me that the political changes which affect the whole world are greatly and which are born in your own country, should earn a little importance in your life."

All this is true, yet it is hard to believe that the American student is more irresponsible than students in other countries. It is foremost among students to show that the political changes which affect the whole world are greatly and which are born in your own country, should earn a little importance in your life.
Miss Ruth Stone, president; Miss Roberta Herring, rush captain; Mrs. Jane Lentz, president; Mrs. K. J. Arbor, business manager; Mrs. S. C. Parker, Delta Pi, and Mrs. Arthur Z. Wilson, junior. 

 Guests of Kappa Alpha Theta were greeted by Mrs. Jane Lentz, president; Mrs. O. A. Schmidt, vice-president, and Miss Katherine Scott, the housemother. Mrs. Mary Lola Hoffman, president; Miss Mary Lou Morgan, and Miss Elizabeth Newton, sophomore. 

 The trees were arranged about the house as decorations, and the young women were gathered for the entertainment.

 Delta Delta Delta entertained guests at a colonial supper Sunday evening in the chapter house of the Beta Phi house. The room was artistically decorated in black and white. The entertainment included a short skit portraying the founding of the society.
31 VARSITY GRIDSTERS REPORT

SLOW RAIN FORCES AGGIES INTO FIELD
HOUSE ON MONDAY

ALL PLAYERS REPORTED FOR 4; MENCHER COMES IN LATE DAY; FUNDAMENTALS
STILLED IN OPENING PRACTICE WITH
TENTATIVE FIRST TEAM PICKED

Thirty-one Aggie football players responded to the first call of the season Monday night and went thru their preliminary practices in the Aggie field house while a slow drizzle deluged the radio Field and left it far too wet for practice.

Only 29 of the men who checked suits were able to come out Monday as Floyd Mencher and Ralph Scheibley were detained by registration until it was too late to report. Hughes, assisted by Coaches Joe Byas and Julian Wagner divided the squad into two groups, the backfield and end candidates and the other was composed of tackles, guards and centers.

A few of the new fundamentals which will be used by the Aggies in the opening grid campaign, were demonstrated and then a tentative first team was fixed up for practice.

On the line were Norris and Cruikshank, veteran ends, McMichael and Neace, who were one of 210 pounders that were in the tackle positions. Maag and Rea were guards and Memmert was back in the pivot position. In the backfield, Maag, guard of last year, was playing at quarterback, White and Campbell were at the half back posts and Gost was in at fullback.

FRESHMEN FOOTBALL
UNDER WAY TUESDAY

Plan Women's
Sport Work

Sports for Aggie girls will prob-
ably be organized to detail new
week after physical examination
of all girls are completed.

Fall sports will be hockey and
track in both of which were in-
teresting interscholastic competition is
expected. Track sports activities are
sponsored by the Women's
Athletic Association. This
associate owns all freshmen girls, as
well as upperclass girls, to partic-
take in as many as many as feasible
during the school year as possible.

Track is considered an in-
tercise sport and to have the
champion team on the basis of
which each class of girls will strive.
Last year the freshman and junior classes
competed against each other for the
championship honors. For
instance, a girl is selected after a
large number of matches as chal-
lenge of her class, then the four
girls meet in competitive matches
to determine the school championship.
