Artist Statement

Alexandra Barnes

I have always had a strange fascination with typefaces and handwriting, but it was not until I was living in Africa that it struck me that I wanted to be a graphic designer. At the time, the power was out and I was entertaining myself by illustrating mandalas and I realized art was what I wanted to do with my life. I was not positive I would like creating art on the computer since any artwork I had experience with was through more traditional means, but I need not have worried. Posters and illustrations are my absolute favorite and the computer is a fun medium to accomplish both. One day, I hope to design book covers, as I love to read. However, for now, graphic design is such fun for me, that any path that involves designing will make me happy.
