Query Studio Example

1. Go to:
   - Public Folders > Voyager 7 - Cataloging > csmdb > Custom Reports

2. Click on Query Studio
3. Click on Run Report and then Preview with No Data
4. Click on Insert Data and then expand the Presentation Layer
5. Add filtered query items first, then add non-filtered items!

   Expand MFHD Record
   - Add: MFHD Location Name
     - Filter it (Archive)

   Expand Item Record
   - Add: Item Barcode
     - Filter it (show only missing values)

   Expand Bib Record
   - Add: Title

   Go back to MFHD Record
   - Add: Display Call Number

6. Go back to Run Report and Run with All Data
