CONTENTS

HIGHLIGHTS

I. GENERAL

PROJECT ACTIVITIES

Mossgas Project is Significant New Force in South Africa Synfuels

GOVERNMENT

Watkins Names New Secretarial Advisory Board Members
Gentile is New Fossil Energy Assistant Secretary
DOE Issues Interim Report on National Energy Strategy

ENERGY POLICY AND FORECASTS

NRC Outlines 5-Year R&D Program for Liquid Transportation Fuels
Recent Energy Forecasts Compared
IOCC Predicts Oil Prices to Soar by 1995
CERI Sees Tightening Oil Supply, Rising Prices
Large Gains in Energy Efficiency said Possible by 2010
National Coal Council Makes Wide Ranging Recommendations for National Energy Strategy

TECHNOLOGY

Exxon Patents Process for High Density Jet Fuel from Heavy Feedstocks

INTERNATIONAL

Reformed Methanol Power Generation System Under Study in Japan
CSIRO Alternative Fuels Research Shifts Emphasis

COMING EVENTS
II. OIL SHALE

PROJECT ACTIVITIES

Western Slope Refinery Suspends Operations 2-1
Land Exchange Could Revive White River Oil Shale Project 2-1
Unocal Shows Profit from Parachute Oil Shale Project 2-1
OOSI Demonstration Project Summarized 2-3

CORPORATIONS

NaTec Process Ready for Commercial Application 2-5
SPP/CPM Sees Need for Australian Shale Oil 2-5
Eastern Oil Shale Program to Continue at Kentucky CAER 2-8

GOVERNMENT

Unocal Requests Aid for Oil Shale Project 2-11
AGNC Supports Oxy Project 2-11
Colorado Voices Support for Oil Shale 2-12

ECONOMICS

WRI Study Shows Potential Feasibility for Small-Scale Shale Project 2-15

TECHNOLOGY

Oil Shale Wet Oxidation Process Patented 2-19
Shell Patents In Situ Process, Reveals Field Tests 2-20
Kerogen Pyrolysis Mechanisms Elucidated 2-23
Shale Oil Use as Asphalt Recycling Agent Demonstrated 2-26

INTERNATIONAL

Research and Productivity Council Tests Two New Brunswick Oil Shales 2-30
Australian Shale Oil Makes Acceptable FCC Blendstock 2-33
Sulfides in Spent Shale Controlled by Retort Conditions 2-35
Estonian Oil Shale Ash Finds Extensive Use as Fertilizer 2-35

ENVIRONMENT

Environmental Management Program Developed for Spent MIS Retorts 2-38

WATER

Occidental Files for Due Diligence on Water Rights 2-42

SOCIOECONOMIC

Boomtowns Must Prepare for the Bust 2-43

RECENT OIL SHALE PUBLICATIONS/PATENTS 2-44

STATUS OF OIL SHALE PROJECTS 2-47

INDEX OF COMPANY INTERESTS 2-62
III. OIL SANDS

PROJECT ACTIVITIES

Steamflood at Bodo Showing Better Results than Fireflood 3-1
OSLO Struggles Ahead After Loss of Federal Funding Commitment 3-4
Oil Sands Profits Jump at Suncor 3-5
Peace River Expansion Project Completes Third Year of Operation 3-7
Syncrude Surpasses 200,000 BPD Production Capability 3-9

CORPORATIONS

Peace River Output Reaches Design Capacity 3-10
PanCanadian Sees OSLO as a Key Project for the Future 3-10
Norcen Completes Buyout of Westmin Oil and Gas Assets 3-10
ARC Report Highlights Heavy Oil Work 3-10
Sceptre Expands Heavy Crude Oil Activity 3-11
Amoco Canada Tests Recovery Techniques 3-11
Murphy Restarts Lindbergh Project 3-12
ORS Reports Progress on EM Process 3-12
AEC Highlights Syncrude Advances 3-13
BP Canada Put Wolf Lake 2 on Hold in 1989 3-14
Amoco Plans to Sell Interest in Syncrude 3-15

GOVERNMENT

Alberta to Review Petro-Canada Oil Sands Leases 3-16

ENERGY POLICY & FORECASTS

EMR Study Sees Big Growth in Synthetic Crude Oil by 2020 3-17
Canadian Oil Sands Drilling Drops 3-19
CERI Forecasts Canadian Output Below 1.5 MMB/D 3-20
Husky Sees Heavy Oil and Oil Sands as Strategic Asset 3-21
Industry Challenged to Create a Future for Heavy Oil and Tar Sands 3-22

ECONOMICS

Integrated Hydropyrolysis of U.S. Tar Sands said Economic at $23/BBL 3-24

TECHNOLOGY

Work on Donor Refined Bitumen Process Reveals Optimum Severity 3-28
Dredging and Cold Water Extraction Show Promise for OSLO 3-29
Advances Made in Borehole Hydraulic Mining 3-32
Solv-Ex Patents Combined Solvent and Hot Water Extraction Process 3-34

INTERNATIONAL

AOSTRA Outlines International Activities 3-37
Tatarian Tar Sands Draw Interest 3-39

RECENT OIL SANDS PUBLICATIONS/PATENTS 3-40

STATUS OF OIL SANDS PROJECTS 3-43

INDEX OF COMPANY INTERESTS 3-67
IV. COAL

PROJECT ACTIVITIES

Point of Ayr Liquefaction Plant Due Onstream this Year 4-1
Great Plains Sets Record, Kicks Off Phenol Project 4-3
Colorado Gasification Plant Proposal Denied Again 4-4
Gasification System at Hazelton Goes into Litigation 4-4
Midland Cogeneration Project Hopes to Arrange Private Funding 4-4
Dow Syngas Passes Third Year of Operation 4-5
Two Ton Per Day Entrained Gasifier Accumulates 1,500 Hours in Japan 4-6
Progress Reported in Shell Coal Gasification 4-7

CORPORATIONS

Alberta Research Council Summarizes Coal Work 4-11
Texaco Sees Increasing Gasification Opportunities 4-11
Southern Company Services to Study Hot Gas Cleanup Processes 4-12

GOVERNMENT

Watkins Names New Members to Coal Advisory Council 4-13
DOE Clean Coal Hearings Held in San Francisco and Boston 4-13
GAO Surveys Utilities for Potential Use of Clean Coal Technologies 4-14

ECONOMICS

Reliability of Future Combined Cycle Power Plants Studied 4-17
Carbon Fuels Claims 37 Percent Rate of Return Possible 4-18
Economic Feasibility of Coprocessing Depends on Oil and Resid Price Range 4-20

TECHNOLOGY

Shell Patents Gasification Burner with Spiral Flow Cooled Face 4-22
Surface Oxidation Catalyzes Carbon Gasification 4-23
Large Capacity Coal Slurry Pumps Available 4-24
Carbon Dioxide Studied as Gasification Agent 4-25

INTERNATIONAL

CSIRO Forms Division of Coal and Energy Technology 4-28
IGCC Repowering Considered for Spanish Power Plant 4-28
British Coal Studies Gasification/FBC Topping Cycles 4-29
Coal Slurry Lines Planned in China 4-32
IEA Sees Increased Lignite Use Worldwide 4-33
Japanese Development Program Targets All Aspects of Air-Blown IGCC 4-35

ENVIRONMENT

NCA Commends Bush Administration for Climate Change Leadership 4-37
Environmental Benefits of UCG Combined Cycle System Noted 4-37

RECENT COAL PUBLICATIONS/PATENTS 4-41

STATUS OF COAL PROJECTS 4-46

INDEX OF COMPANY INTERESTS 4-90
