CONTENTS

HIGHLIGHTS A-1

I. GENERAL

CORPORATIONS 1-1

CSIRO Continues Strong Liquid Fuels Program

GOVERNMENT 1-3

DOE Fossil Energy Budget Holds Its Ground
New SBIR Solicitation Covers Alternative Fuels
USA/USSR Workshop on Fossil Energy Held

ENERGY POLICY AND FORECASTS 1-10

Politics More Important than Economics in Projecting Oil Market
Study by Environmental Groups Suggests Energy Use Could be Cut in Half
OTA Reports on U.S. Oil Import Vulnerability
Energy Secretary Decrees Failure of Energy Strategy Bill
BP Statistical Review Notes Lack of Growth in World Energy Reserves and Use

TECHNOLOGY 1-21

Flexible Fuel Conversion Plants Proposed

INTERNATIONAL 1-23

Continuation of Australian Energy Exports Recommended

COMING EVENTS 1-25

II. OIL SHALE

PROJECT ACTIVITIES 2-1

Stuart Project has Definitive Construction Cost Estimate
Northlake Industries Demonstrates Shale Extraction Process

CORPORATIONS 2-2

Paraho Announces Loss for Year

GOVERNMENT 2-3

BLM Developing Resource Management Plan for White River Area
MTCI Wins SBIR Grant for Oil Shale Retorting
ECONOMICS

Paraho Projects 30 Percent Return on Shale Oil Asphalt
Use of Spent Shale in Cement Manufacture Offers Economic Benefits

TECHNOLOGY

Amoco Patents Shale Oil Syncrude Dedusting Process
Fifty Pound Per Hour Cold Flow Tests Carried Out on Kentor Design

ENVIRONMENT

Creation of Low Permeability Layers Could Retard Leaching from Shale Piles

WATER

Unocal Files for Water Rights

RESOURCE

Moratorium Put on Patenting of Oil Shale Lands
Proposal Made to Lease Naval Oil Shale Reserve for Gas Development
NaTec Resources Producing Nahcolite in the Piceance Basin

OIL SHALE PUBLICATIONS/PATENTS

STATUS OF OIL SHALE PROJECTS

INDEX OF COMPANY INTERESTS

III. OIL SANDS

PROJECT ACTIVITIES

OSLO Winding Down
Biprovincial Upgrader Requires Additional Funds
Suncor Reports Earnings Increase, Record Oil Sands Production
Oil Sands Production Figures Updated

CORPORATIONS

Solv-Ex Still Looking for Financing for Bitumount Project
Nova to Sell Husky
Imperial Considering Heavy Oil Upgrader
Petro-Canada Sells Part of Syncrude Interest to Mitsubishi
Murphy Cites Favorable Heavy Oil Results with Horizontal Drilling

GOVERNMENT

DOE Calls for Advanced Oil Recovery Proposals
ERCB Issues Orders and Approvals in Oil Sands Areas

SYNTHETIC FUELS REPORT, DECEMBER 1991
ENERGY POLICY AND FORECASTS

National Energy Board Predicts Increasing Bitumen Production 3-9
UNITAR Director Notes Importance of Heavy Oil and Tar Sands 3-10

TECHNOLOGY

Clean Coal Technology May Find Use in Heavy Oil Applications 3-12
Horizontal Wells Becoming Viable for Heavy Oil and Tar Sands 3-14
VCC Technology Ready for Commercialization 3-17

INTERNATIONAL

Nigeria Tar Sands May be Developed 3-20
Orimulsion Making Progress in European Markets 3-21
AOSTRA Annual Report Outlines International Efforts in Heavy Oil and Oil Sands 3-22
Soviet Production of Natural Bitumen and Bituminous Rocks Covers 20 Years 3-25
Orimulsion Tested in Italy and Florida 3-27

ENVIRONMENT

Taciuk Process Finds New Environmental Applications 3-28

OIL SANDS PUBLICATIONS/PATENTS

STATUS OF OIL SANDS PROJECTS

INDEX OF COMPANY INTERESTS

IV. COAL

PROJECT ACTIVITIES

Wabash River Project Will Demonstrate Coal Gasification Repowering 4-1
CTC to Test Char in Electric ARC Furnace 4-3
ENCOAL on Schedule for Startup in First Half of 1992 4-6
Preliminary Design for Combustion Engineering IGCC Project to be Finished Next Year 4-8
MTCI Indirect Gasifier Yields High Hydrogen Concentration 4-10
Production at Great Plains Continuing at High Level 4-12
TECO Energy Relocates Round 3 IGCC Project 4-13
Eastman Expands Chemicals from Coal 4-14

CORPORATIONS

UCG Project Proposed for Pennsylvania Anthracite Region 4-17
Joint Research Teams Attack Oil from Coal Challenge 4-18
Status of CCT Projects Updated 4-19
SGI Activities Multiply 4-22
DGC Shows $10 Million Profit in 1990 4-22

SYNTHETIC FUELS REPORT, DECEMBER 1991
GOVERNMENT

Nine New Clean Coal Projects Selected 4-24
DOE Tells Congress No Additional Work Needed on Coal Refineries 4-26
CCT Round 5 Delayed 4-30
Two SBIR Grants Given for Coal Liquefaction 4-31

ENERGY POLICY AND FORECASTS

CERI Sees Big Role for IGCC in Canada 4-33

ECONOMICS

Mild Gasification to Produce Formcoke in Pennsylvania Shows Promise 4-36
Economic Impact of Coal in Canada Assessed 4-38

TECHNOLOGY

ENCOAL Solid Product Shows Favorable Combustion Properties 4-41
Vortex Fluidized Bed Gasifier Under Development 4-43
Advantages Seen for COREX Process 4-45
Direct Coal-Fired Gas Turbine Tested 4-48
Coal Hydrogen Controls Catalyst Deactivation in HRI Coprocessing 4-48

INTERNATIONAL

IGCC Based on Biomass and Peat Under Study in Finland 4-51
China Plans More Coal Gasification Plants 4-53
SASOL to Expand Chemicals Production 4-53
200 TPD IGCC Pilot in Operation in Japan 4-54

ENVIRONMENT

CIAB Sees Opportunity to Reduce Carbon Dioxide Emissions from Coal 4-56

SOCIOECONOMIC

BLM Affirms Montana Leases with Cultural Stipulations 4-59

COAL PUBLICATIONS/PATENTS

4-60

STATUS OF COAL PROJECTS

4-64

INDEX OF COMPANY INTERESTS

4-111

V. NATURAL GAS

PROJECT ACTIVITIES

New Zealand Synfuels Produces Record 6-Month Output 5-1
GOVERNMENT

DOE Outlines Proposals to Help Gas Industry 5-2
Gas-Fired Liquefier Gets SBIR Award 5-2

ECONOMICS

Liquid Fuels from Natural Gas Should be Competitive at Oil Prices of $25 to $30 5-4

TECHNOLOGY

Exxon Develops New Process for Synthetic Liquids from Gas 5-5
New Method Discovered for Converting Methane to Higher Alkanes 5-6

INTERNATIONAL

Gas Production and Reserve Additions Up in 1990 5-7

STATUS OF NATURAL GAS PROJECTS 5-8
