HIGHLIGHTS	vii
COMING EVENTS	xi
RECENT PUBLICATIONS OF INTEREST	xvi

I. OIL SHALE

LAND

Superior Oil Signs Option to Obtain Royalty Interest of Former Owners of Colorado Shale Property	1-1
USBM Releases Logs of Washakie Basin Corehole No. 2	1-1
Oil Shale Legal Proceedings Reviewed.	1-1

WATER

Two Rulings by U. S. Supreme Court Concern Adjudication of Federal Claims to Water.	1-5
Senator Moss Introduces Senate Bill 28 Which Would Clarify Federal/State Interest in Western Water	1-6
Highlights of Quarterly Meeting of the Colorado River Water Conservation Board.	1-6
Experimental Rainfall-Runoff Facility at CSU Tests Leaching Characteristics of Spent Shale.	1-7

SALINE MINERALS

Nahcolite Content of Saline Zone Reported for Three Additional Locations in Piceance Creek Basin	1-10
--	------

TECHNOLOGY

New Data on TOSCO Process Economics Presented by Winston	1-11
Project Rio Blanco -- A Proposed Commercial Natural Gas Nuclear Stimulation Project in Oil Shale Country.	1-13

Phillips <u>In Situ</u> Process Patent Visualizes Dissolution of Kerogen in Hot Shale Oil.	1-18
Shell Patents Process for Improving Permeability of Shale Rubble in an Underground "Chimney".	1-19
Heat Contents Determined for Several Grades of Oil Shale, Spent Shale, and Burned Shale	1-19
USBM Reports on Compositional Variations of Kerogen in Green River Oil Shale	1-19
BuMines <u>In Situ</u> Oil Shale Projects Reviewed	1-20

GOVERNMENT

Lincoln Report to President Nixon Recognizes National Need to Produce Synthetic Fuels	1-24
Secretary Morton Appoints Team to Review Environmental Aspects of Prototype Oil Shale Leasing Program	1-25
State of Utah Reports to Interior on Environmental Problems of Oil Shale	1-26
State of Wyoming Reports to Interior on Economics of Environmental Protection Concerning Oil Shale Development	1-35
State of Colorado Starts on Four Oil Shale Study Programs Recommended in "SCEEP" Report.	1-41
Proposed Federal Rules Concern Ambient Air Quality, Water Quality, and Operations on Public Lands	1-41
Senate Measure Would Repeal Homestead, Mining, Mineral Leasing Acts	1-43
House Bill Would Establish National Land Use Policy	1-45

CORPORATIONS

Large Retort Available for Shale Retorting Tests, Industry Sponsored, Commercial Scale Demonstration Proposed	1-47
Colony Development Operation in "Full-Run Production" at Semi-Works Demonstration Plant.	1-47
Domestic Crude Oil Sufficiency of Major Integrated Oil Companies Reviewed	1-47

MEETINGS

Symposium on Shale Oil, Tar Sands and Related Materials, ACS, Division of Fuel Chemistry, Los Angeles, April 1971	1-50
AIME National Meeting, New York City, February 1971	1-63

FOREIGN

Colorado School of Mines Publication Reviews Estonian-Russian Oil Shale R & D.	1-72
Oil Shale Demonstration Plant Featuring Petrosix Retorting Process Nears Completion in Brazil	1-72

II. OIL SANDS

LAND

Changes Noted in Alberta Leaseholdings - Activity Limited	2-1
--	-----

TECHNOLOGY

Processability of Tar Sands Related to Aluminum Content	2-17
Syncrude Group Patents Additive for Use during Tar Sand Processing	2-17
Shell Patents Process for the Recovery of Oil from Bituminous Sand	2-17
Removal of Water from Bituminous Emulsion Subject of Patent	2-17

GOVERNMENT

Threat of Benson Paper on Future of Canadian Oil Sands Development Eases	2-19
---	------

CORPORATIONS

Renewed Interest in Canadian Oil Sands Development Activities Noted	2-24
Canadian Petroleum Association Reports on Reserves Recoverable from GCOS Operation	2-25
GCOS Year-End Report Reflects Improved Plant Economics	2-26

III. COAL

LAND

New Standards for Classification of Public Coal Lands Available	3-1
Northern Cheyenne Sale Brings High Prices	3-2
Rental on Federal Coal Leases Hiked	3-4
Strippable Coal Reserves of North Dakota Subject of BuMines Report	3-4
Coal Reserves of Colorado Tabulated by Bed	3-4
Activity on Public Coal Lands Remains High	3-5

TECHNOLOGY

Status of Bureau of Mines "Synthane" Gas Project Reviewed	3-11
"TOSCOAL" System for Producing Low-Sulfur Liquids and Char from Coal Announced	3-12
Engineering Evaluation of Project Gasoline Completed by Foster Wheeler - NAE Concurs with Results	3-12

GOVERNMENT

Senate Bill 1846 Would Establish a Coal Gasification Development Corporation	3-15
Senate Measure Would Provide Tax Incentive for Development of Synthetic Fuels from Coal & Oil Shale	3-15
Legislation to Increase Coal Depletion Allowance Sought	3-16
House Measure Would End Surface Mining of Coal	3-16
OCR Activities Reviewed - FY '72 Budget at \$21 Million	3-17
Cost Sharing Required for Most Government Supported Research	3-19
Report on Ashless, Low-Sulfur Fuel from Coal Available	3-21
Project Western Coal Report Issued	3-21

CORPORATIONS

Westmoreland Eyes Development of Montana
 Properties - Trouble Hinted 3-23
 Gas Company Ordered to Study Coal
 Gasification 3-23
 U. S. Coal Production Continues Upswing. 3-24

MEETINGS

Conference on Synthetic Fuels from Coal
 Held at Oklahoma State University 3-26
 American Chemical Society, Division of
 Fuel Chemistry, Los Angeles, March-April. 3-29

APPENDIX

Utah Supreme Court Decision Concerning State
 Oil Shale Leases A-1
 U. S. Supreme Court Decision No. 87 Concerning
 Adjudication of Federal Water Rights
 in State Court Proceedings A-4
 U. S. Supreme Court Decision No. 812 Concerning
 Adjudication of Federal Water Rights
 in State Court Proceedings A-7
 Nahcolite Content of Samples from Three Coreholes
 in Colorado's Piceance Creek Basin A-9
 Resistivity and Gamma Ray Logs from Washakie
 Basin Corehole No. 2 A-13
 Alberta Government Position Paper on Revisions to
 White Paper Tax Reform Proposals A-17
 Office of Management & Budget Circular A-100
 Concerning Cost Sharing on Government-Supported
 Research Projects. A-20
 Excerpts from OCR Report on Ashless Low-Sulfur
 Fuel from Coal A-23
 Copy of Congressional Record Containing Senator
 Jackson's Senate Bill 1846 to Establish
 a Coal Gasification Development Corporation. A-30
