Dear Editor:

We of the Grand Junction Ladies Chapter of the Izaak Walton League of America are going on record as definitely for the Colorado River Storage Project, now that one of the nation's heritages, a National Monument is not going to be invaded; and also because Colorado is going to get a more equitable share of the benefits of the water where most of it originates.

We are sending you copies of letters we are sending out. These are not sent to you for publication but rather that you may have the information first hand, as you also are champions of the cause.

Sincerely yours,

M. E. Wroble

P. S. Why can't Echo Park, with its unusual features, become to Colorado what Yellowstone is to Wyoming?

P.S. Please erase spelling corrections — M. L. W.
