DEAN FENDER TO SPEAK AT
COMMENCEMENT JUNE 11
110 SOPHS GRADUATE

SBA Offices
Filled: Pat Murphy Is
Editor 48-49

The final elections and appoint­ments have been made for next year's officers.

At an all-school dance held two weeks ago the student body of­ ficers were announced. Since that time it has been discovered that many students weren't at the dance yet don't know about the elections, and others don't know even if they were elected.

Grant Huntley was elected to the office of freshman president by a plurality of votes. He is the son of Mr. and Mrs. John Huntley, and will Klukpy. Grant was this year's freshman class president.

Gordon O'Brien defeated Burton McKeever and Pat Murphy in the election of vice president. With his winning of the office his promise of being a very capable person to fill the of­ fice of vice president, Meridonna Baker was elected treasurer defeating Harold Reeves and Pat McGee.

During a conference held last week in Mr. Watson's office, it was decided that Kenneth Murphy and Pat McGee would edit the Criterion next year. He has been on the staff all year, beginning as advertising solicitor and working up to Associate Editor. He is intensely interested in the welfare of the paper and the college in general and should make a very capable editor.

Jessie Gardner in Musical Recital

Miss Jessie Gardner gave a most commendable recital at 2 o'clock on Friday, May 21, at the New Auditorium. She is studying voice under Marie Truesse here at Mesa College.

Assisted by Mary Catherine Straka, pianist, Miss Gardner, a soprano, included the following numbers in her recital:

Huning, Will Riegio: The Moon
Behind The Cottonwood, Cadman.

GRANT HUNTLEY
PAT MURPHY
GORDON O'BRIEN
MERIDONNA BAKER

Sophomores Graduate June 11, At
10 A.M.; E. E. Feder of U. of Denver
To speak "Marks of Education"

With graduation coming up, arrangements for the ex­class have been completed. The commencement is to be held on Friday, May 11, at 10 a m. in the College auditorium. At 2:30 p.m. on the same day, a reception will be given for the depart­ing sophomores. Students, parents, and alumni are to be guests. There will be no baccalaureate this year.

The music for the commemo­ran will be furnished by the Mesa College Symphonyette. Mr. Harry Hammer will be the conductor. The education march will be the one used last year.

The speaker will be Dean E. E. Feder, head of the department of education of the University of Denver. Dean Feder is one of the outstanding speakers in the state of Colorado. In his speech, "The Marks of an Edu­cated Person", is expected to be a very good one.

Diplomas will be awarded to graduating sophomores, and scholarships will be awarded to both sophomores and freshmen.

At the Freshman Class meeting held Friday, May 21, officers for next year's sophomore class were elected. Bill Klukpy was the top executive with the title of chairman of the Big-Little Sister Party, to be held next fall.

Mesa News Briefs

At the Freshman Class meeting held Friday, May 21, officers for next year's sophomore class were elected. Bill Klukpy was the top executive with the title of vice presi­dent. Floyd Branscomb was elected to the title of treasurer.

Since the attendance at the meeting was small, there was no discussion as to whether or not elections should be postponed. It was decided that the elections should be held at this time. There was little probability of get­ting more students together at a later date.

For the benefit of those who weren't there you might want to know that the financial position of the class can now be ex­amined, as all expenses have been accounted for, with the ex­ception of the idea parade, to the tune of $319, the flag rent around $80, and the $70 paid for the Homecoming parade, last fall, $65.

An A. M. S. was held Wednesday at 11:30. The music for the meeting was to warn the men that the A. M. S. is in debt, and if the above was too much of an attempt will be made to have your grades held until the debt is paid.

At the close of the meeting, a col­lection was taken to buy flowers for the funeral of Dale Patterson.

At a short A. W. S. meeting held Wednesday, next year's officers were elected. Paul Thompson was elected president; Mela Thompson, vice president; andisms Fisher was elected treasurer. Mary Beth Woodman was elected as chairman of the Big-Little Sister Party, to be held next fall.
An Open Letter

This is the last Criterion of this year. We are making this the last one for two reasons. The first is because we want to give the staff members a chance to study for their final examinations. The second reason is because most of the staff resigned last year with the time they need to study. It may be just as well.

The Criterion, this year, has had a long hard struggle to meet the weekly deadlines with enough articles to print a paper with. That long struggle ends with this issue. (Happy day)

Although we have had to work and rave to get out the paper, we, as editor, have enjoyed it. It gave me a chance to realize how hard it is to write for a college. I know I was not really qualified to edit the paper, but I have taken every opportunity to improve my writing. I have met so many people in the college, I know that I have not had any time to write for the staff and I am very grateful for that.

I have enjoyed working with the students of the college. As a rule they have cooperated very well with the Criterion, if they have any difficulties, such as moral ones, etc., of their responsibilities toward the college publication.

I am going to leave the college behind and go on to others, but my two years are up and I have no longer a place to fill. I'm sure I'll never enjoy going to another college as much as I have Mesa.

In leaving Mesa, and the Criterion, I'm confident that the college will continue to give the staff members a chance to study for their final examinations. I know this letter is inadequate to say what I really want to say, but I am sure that the college will continue to give the staff members a chance to study for their final examinations.

Dollars and Cents

BY EMMA JEAN DALEY

Now is the time!" might be the best advice for any business. Or, more to the point, any business, small or large, must now try to create financial independence for itself. The present financial climate, with so many businesses being declared bankrupt, is a most promising time for anyone who wants to become financially independent.

Four students have recently been placed in the business field. Each of these students has been successful in their new environment. They have all been able to do well in their jobs, and some have even been promoted to higher positions. It is not surprising that these students have been so successful. They have all been very hard working, and they have been able to make the most of their opportunities.

Unfortunately, this tendency continues to pervade the business world. Many businesses still fail to recognize the true value of their employees. They often fail to recognize the potential of their employees, and they often fail to develop the full potential of their employees. It is only through the proper development of a business that it can become financially independent.

The students have been placed in the business field by their own efforts and determination. They have all been able to make the most of their opportunities, and they have all been successful in their new environment.

The students have been placed in the business field by their own efforts and determination. They have all been able to make the most of their opportunities, and they have all been successful in their new environment.
