NOTES

PRR (Preliminary Reconnaissance Reports) reports may not be complete in the form Bendix sent them to us. There may also be a copy microfilmed by NTIS or Oak Ridge which is more complete and both copies should be kept together. (The original copies of the PRR's were sent to the Museum).

PGJ reports were replaced by PGJ/F and GJQ reports. All PGJ's should be discarded. Note that the filing of these reports differs from the usual date/number pattern. They are filed numerically, disregarding the date.
The reports listed in this Bibliography are available, as of August 1, 1984, from the U.S. Geological Survey, Open-File Services Section. Inquiries should be sent to U.S. Geological Survey, Open-File Services Section, Building 41, MS 306, P.O. Box 25046, Federal Center, Denver, Colorado 80225, Telephone (303) 236-7476.
