

**Wyoming Election Year Survey
1998**

The Wyoming Election Year Survey (WEYS) is statewide telephone poll conducted biennially by the Survey Research Center under the sponsorship of the Department of Political Science and the College of Arts and Sciences. A total of 602 respondents (selected at random) were included in the 1998 WEYS. The number of respondents in the Post-Election Survey is slightly lower (N=504) because some respondents declined to participate in the second interview or could not be reached. The Pre-Election Survey was conducted in mid-October. The Post-Election Survey was conducted following the November 3rd election. For convenience, “no opinion,” “don’t know,” “refused to answer,” and “no response” have been combined into a single “Don’t know/No response” (DK/NR) category.

**Pre-Election Survey
