## MEMORANDUM

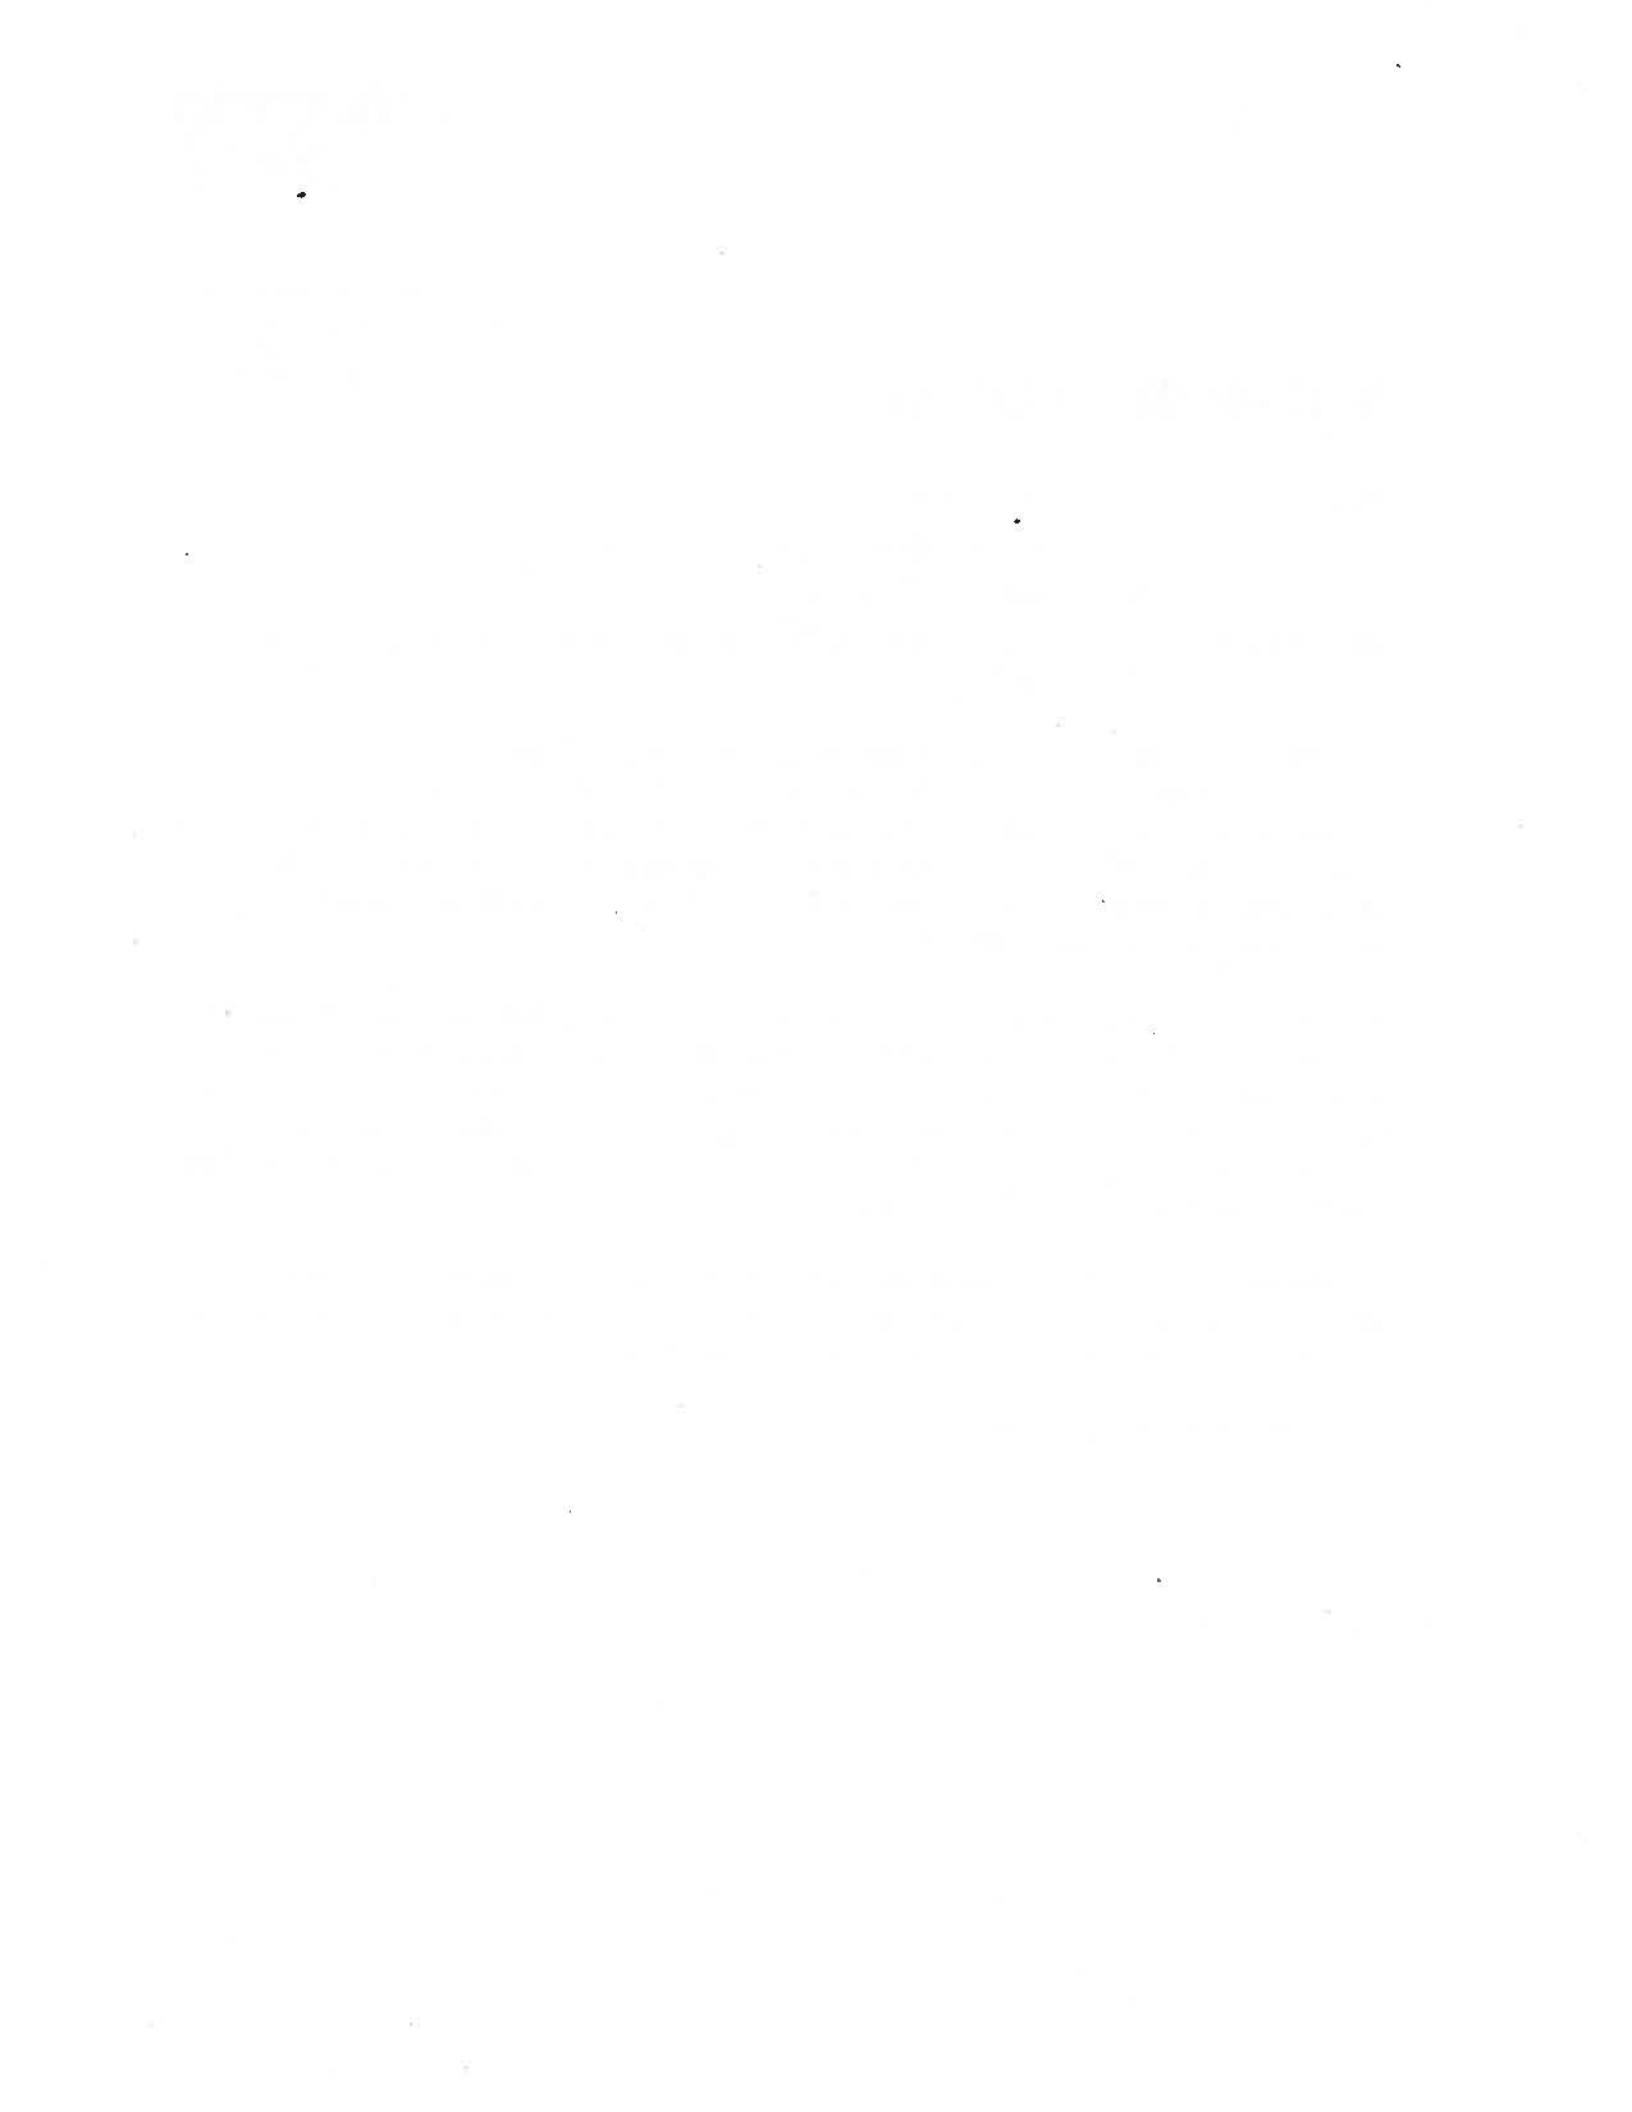

**DATE:** September 2, 1999  
**TO:** Counseling Faculty and Graduate Students  
**FROM:** Scott Hamilton *SH*  
**REGARDING:** List of New Professional Texts in the Morgan Library Purchased with CCHE funds

Attached is a memo from Jennifer Monath (the Behavioral Sciences Librarian) and a list of professional textbooks purchased last year with CCHE funds. As you will see, the list includes topics/issues relevant to the intent of the CCHE grant and includes books in such areas as psycho-oncology, time-limited therapy, managed health care, rapid psychological assessment, psychiatry/clinical psychology (handbooks), health psychology, stress, substance abuse treatment, ethics, etc.

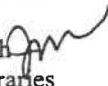

Jennifer was provided with \$10,000 in grant funds and was given some general parameters for purchasing books, and a copy of the CCHE Enhancement Plan. With a few minor exceptions, Jennifer was responsible for selecting and purchasing the materials for the library. I realize that the list may seem imbalanced in some areas (e.g., psychosocial issues in cancer), but this was more a reflection of the availability of new books, current library holdings, and Jennifer's interpretation of the CCHE Grant Proposal.

We also ordered a few books and manuals for in-house use (these materials are currently being stored in B-221). We will be informing you later about these books, the videotapes we purchased, and the checkout policy for these "in-house" materials.

I hope this information is helpful.

TO: Dr. Scott Hamilton  
Psychology Department

FROM: Jennifer Monath   
University Libraries

DATE: August 9, 1999

RE: Psychology/CCHE grant to the Libraries

Hi, Scott. Just wanted to report on how we spent the \$10, 000 grant monies you gave us last year. I have attached a list of the books that were ordered. The monies were spent, and I hope you agree that they were well spent.

Your generosity has enabled us to augment an important part of the collection. I hope that these materials will be well used to support the CCHE grant focus of graduate training in counseling and clinical psychology in the new managed care environment.

Thanks again, Scott.
