

## **Bradley Niedt**

This project, Distilling Discovery, began about a year ago with the realization that my artwork tends to form itself into metaphysical spaces. As far back as I can remember, I have yearned to discover new places, places that no one has ever seen or touched. My process of drawing in this series allows me to discover these places as they come into the physical world. These spaces are constructed and controlled within my mind. I invite my viewers to explore these spaces and discover the details within.
