

## Project Summary Sheet – Year 2000

Project Name Long Term Monitoring Project - Small Mammal

Project Number 118 ARS#

Principal Investigator(s) Paul Stapp, Mark Lindquist, Bill Lawenroth

Dates of Data Collection 01-04 May 2000, 08-11 May 2000,

Location of study area(s) small mammal trapping webs located in CPER sections 24 NW, 26, 27, 13 SE, 13 NW, 25

Full Names of Data Collectors Mark Lindquist, Laurel Hartley, Nicole Kaplan

Summary of Data Collected (How are data sheets organized? How many pages are in each section? etc.)

| Date      | Section | # of pages | Date | Section | # of pages |
|-----------|---------|------------|------|---------|------------|
| 08-11 May | 13 NW   | 4          |      |         |            |
|           | 13 SE   | 6          |      |         |            |
|           | 25      | 4          |      |         |            |
| 01-04 May | 24 NW   | 4          |      |         |            |
|           | 26      | 4          |      |         |            |
|           | 27      | 4          |      |         |            |

### Questions and Concerns

- For week 08-11 May, we noted whether a trap was located between shrubs (B) or under a shrub (U). A trap was considered to be under a shrub if at least one branch was hanging over the trap. We need to ask Mark to check his field book for the total #'s of B + U traps on each web
- The weather data is not filled out on each sheet. Is it safe to infer from other data sheets from the same day?

Date copies of data sheets were sent to PI(s) \_\_\_\_\_

Date copies of data sheets were sent to SGS-LTER office \_\_\_\_\_

Names of any other persons given copies of data sheets \_\_\_\_\_
