Capstone - Electronic Art

Department of Art and Art History

Artist Statement:

I create electronic art that focuses on experimentation. I work with video editing software, creative coding, and animation software to experiment with creating interesting visuals. I am strongly interested in color, texture, and movement which I experiment with in my pieces. I am interested in using natural materials as well as completely computer-generated textures, to create different dynamics in my work.

I enjoy creating fully computer-generated visuals due to imperfections that can only be created through glitches or bugged coding. I find that natural or organic source materials can have imperfections but nature in itself is dynamic and has synchronicity which is only found in natural environments.

I am currently working on visuals for live music production. I am focusing on creating visuals that give the viewer a feeling of escapism and euphoria. I want to create visually stimulating video art, which makes the viewer feel good about viewing the artwork.

Title**Original Format**

Figure 1: Underwater Undertaker	Premier Pro, 1920 x 1080, 00:05
Figure 2: White Noise	Premier Pro, 1920 x 1080, 00:05
Figure 3: 4th Dimension Punk Rock Party	After Effects, 1920 x 1080, 00:03
Figure 4: Bavarian Pretzel	After Effects, Max 8, 1920 x 1080, 00:07
Figure 5: Lost in Translation	After Effects, Max 8, 1920 x 1080, 00:07
Figure 6: Degree in STEM	Premier Pro, 1920 x 1080, 00:29
Figure 7: Essence of Fluer	Premier Pro, 1920 x 1080, 00:05
Figure 8: On the fritz	Premier Pro, 1920 x 1080, 00:31
Figure 9: Dissociation	After Effects, 1920 x 1080, 00:05
Figure 10: Alien Encounters	After Effects, 1920 x 1080, 00:09
