Artist Statement:

Timothy Curry

When I am creating a design I find the fact that there is a connection between the client and the design. I the design programs Illustrator and Indesign. I come up with most of the ideas for my design when I am in the comfort of my own home. This is where my creative juices starts to flow. I begin with sketches and after the sketches, I plug in the ideas into the programs.

What inspires my work is myself. I like to try and push my creativity pass the threshold and have that ability to create any design for any client. My work is an examination of different ideas. I designed many different designs, having them look great for the viewers and the client.

Title**Original Format**

Figure 1: Dr. Martin Luther King Jr March and Celebration
