Capstone - Graphic Design

Department of Art and Art History

**Artist Statement:**

As a graphic designer, I am inspired by the events that occur in our lives and the impact they have on us. My work focuses on creating designs that capture the essence of these events and bring them to life. Through my designs, I aim to convey the emotions and messages of these events in a visually compelling way that resonates with the viewer.

Whether it is a social movement, a political movement or a cultural phenomenon, my designs seek to highlight the importance of these events and encourage people to engage with them. I believe that design has the power to shape how people view the world around them, and I strive to harness this power to create designs that inspire, inform and entertain.

As a graphic designer, my passion for storytelling and desire to create designs that change people's lives drives my work. I am excited to continue exploring new ways to bring what happens in our lives to the forefront of our concerns through design.
