Artist Statement: Design can be found in many forms, and I like to convey that through my work. Using a variety of media such as photography, videography, and visual design allows me to tell stories and create cohesive messages for an audience. My goal is to combine influence and personal style to create creative projects that inform and inspire!

# CONSUME Assembly Required

Consumption is in the hands of the people, controlled by corporations. Illusions of choice perpetuate the desire for change when in reality, stores and online retailers distribute little variety. Earth Overshoot Day is a symbol of humanity's self-destruction. Our duty is to support local businesses and think before we consume. Companies need to stop prioritizing the bottom line in favor of a more environmentally friendly future as well. In short, think before you consume.
