2026 2nd Semester

Capstone – Graphic Design

Department of Art and Art History

Artist Statement:

My name is Nick Mastrapa and I am a 5th year Graphic Design art major. I enjoy illustration, digital art/graphic design and printmaking. I like making sci-fi/horror art. I like using my graphic design abilities to help clients achieve captivating and unique visuals. While growing up my preferred medium was pen and ink illustration, I have evolved to become proficient in software in the adobe suite, as well as other programs for digital graphic design. Furthermore, using knowledge from marketing classes as well as my experience working with clients, I have become very good at making marketing material for clients. While my own art has its own style, I am very adaptable at making any type of graphic and working on any type of project.
