1	Applicant Information	
	Applicant:	City of Boulder Open Space & Mtn Parks
	Contact Person:	Chris Wanner
	Address:	66 S. Cherryvale Rd
	City/Zip Code:	Boulder, CO 80303
	Phone (Work/Cell):	720-564-2045
	Email:	wannerc@bouldercolorado.gov
	Fax:	720-564-2095

2	Community At Risk Information			
	Name of Project:		Flagstaff Mtn.	
	Community Name(s):		City of Boulder	
	County:	Boulder	Congressional District:	2
	Latitude (decimal degrees):	40.0027	Longitude (decimal degrees):	-105.30564
	Threat Description (check all that apply)			
	Homes:	<input type="checkbox"/> Number of:	Infrastructure:	X Estimated value of: \$500,000+
	Businesses:	<input type="checkbox"/> Number of:	Economic Viability:	<input type="checkbox"/> Estimated value of:
Watersheds:	<input type="checkbox"/> Number of:	Historic Structures:	X Number of: 4	
Other (Describe):		Flagstaff Cultural Historic Landmark District, Flagstaff Summit Education Center		

3	Requested Grant Amount / Project Description	
	All information for the project must fit into the space provided below. The review committee will not consider attachments.	
	Dollar Amount Requested May Not Exceed \$470 x Number of Acres Proposed For Treatment	
	Dollar Amount Requested	\$25,380
	Will this Project be conducted as a Pass-Through Grant? X Yes <input type="checkbox"/> No	
	Provide a brief overview of the project and the project area. (If applying for a fuels reduction project, identify vegetation types)	
	<p>This project is part of the implementation of the City of Boulder's Forest Ecosystem Management Plan (FEMP) and Community Wildfire Protection Plan (CWPP). Both plans are focused on protecting the community of Boulder and restoring more natural and healthy conditions to the forests managed by the City of Boulder Open Space and Mountain Parks department. This project involves thinning approximately 54 acres of low elevation ponderosa pine forest on public land that is part of a county historic landmark district.</p> <p>The project area is located west of the City approximately one mile west of 6th and Baseline. The area is dominated by young ponderosa pine and Douglas-fir in-growth. Thinning will focus on removing a large portion of small to medium diameter trees and creating an open stand structure. Overall, total basal area will be decreased by approx. 30%. The overall goals of the project are to protect an important cultural and recreational resource and historic structures, improve overall forest health and use existing roads and topography to create a large scale fuel break.</p>	

Scope of Work / Project Timeline

All information for the project must fit into the space provided below. Attachments will not be considered by the review committee.

Provide a brief scope of work that clearly describes how grant funds will be spent. (This should be more specific than the project description)

4

This project will run from approximately March thru July and will include cutting, skidding, chipping and wood removal from the site. Work will also include tree marking, some education and outreach, and post-treatment monitoring to measure project success. All the layout, monitoring, and outreach tasks will be done by Open Space and Mountain Parks (OSMP) permanent staff.

Grant funding will be applied to part of the cost of thinning operations. OSMP supports an annual seasonal thinning crew that completes much of the work in Boulder's forests. OSMP also has the equipment necessary to complete this type of work. Grant funding will be applied to the cost of hiring and maintaining a crew for the time necessary to complete this project. The forest crew is responsible for and will complete all aspects of the thinning operations including cutting, skidding, hauling and chipping.

Describe all planned long-term maintenance (grant funded or other).

Long-term maintenance will include monitoring and additional thinning in the future when necessary. All treatments on OSMP include pre and post-treatment overstory inventories. These inventories measure structure and composition and inform when and where management occurs. The inventory will also measure the success of the treatment and more thinning may be added to maintain desired conditions. All on-going forest work would be included in long-term OSMP workplans.

What is the duration of this project? (check one) ☒ 1 Year ☐ 2 Years ☐ 3 Years ☐ 4 Years

Is this a continuing project from previous year/s? (check one) ☐ Yes ☒ No

Provide a timeline for the project

Project layout, planning, and marking will begin in early January and will likely take 3 to 4 weeks. Cutting will begin in mid to late March with project completion anticipated in July of 2011. All aspects of the project including cutting, chipping, skidding and hauling should be complete by the end of the year.

Interagency Collaboration

Specify the private, local, tribal, county, state, federal and/or non-governmental (501c3) organizations that will contribute to or participate in the completion of this project. Describe briefly the contributions each partner will make (i.e. – donating time/equipment, funding, etc.).

5

All of the work for this project will be completed by OSMP staff with some collaboration with the City fire department. OSMP works closely with City Fire on many forest projects and the Fire department provides staff for project implementation. Fire staff is not fully dedicated to this project but they will provide a number of work days. City employees and equipment will be used for all cutting, skidding, chipping, and hauling.

Community Wildfire Protection Plan (CWPP)

Does this community have a wildfire protection plan that follows the Healthy Forest Restoration Act CWPP guidelines? (check one) ☒ yes ☐ no

Is this project part of the plan? (check one) ☒ yes ☐ no

Request for financial assistance under the Emergency Supplemental LOA program is to meet the objective stated in the management plan. I will not receive more than the actual cost up to \$470 per acre. I understand that I will not be reimbursed for any expenses incurred prior to approval of my application. Work must be completed according to approved plan and application, and must meet the standard set for each component. Practices must be maintained for a minimum of 10 years. Requests for partial payments will be approved on a case by case basis.
