Capricorn

December 22 - January 19

Responsible, Formal, Prudent, Patient,
Methodical, Disciplined, Ambitious,
Hard working, Resourceful, Polite, Loyal

The Capricorn is a strong friend, they will always be there to help, they are very sympathetic, caring and helpful to a friend in need. In times of an emergency, they will always be there for a friend in need. Capricorns enjoy working hard and getting things done, and their patience and intelligence help them endure where others might give up. They also crave independence and would feel just fine in an ivory tower office, directing the battle down below. Capricorns are highly organized, so being on their team is a study in cool efficiency.

Enjoy some Family Fun!

We have lots of fun activities for the whole family!

Family Trail Rides

Little Newt Summer Camp for the kids

Nightly Social Hour for Adults in the Dry Bean

Corporate Conference Space also available for your next Round Up!

Interact with friends of a different species

Horsemanship Classes
Trail Rides
Yearly Cattle Drive
Local Wildlife classes

The wildlife in this area is diverse and spectacular. Our livestock are used to human interaction and we will even lend you a horse if you can't bring your own.

Revisit your favorite Characters

Whether you are an Augustus McCrae fan or a Woodrow F. Call fan, or prefer the likes of Blue Duck or Jake Spoon, our reenactments and performances of your favorite scenes will blow you away!

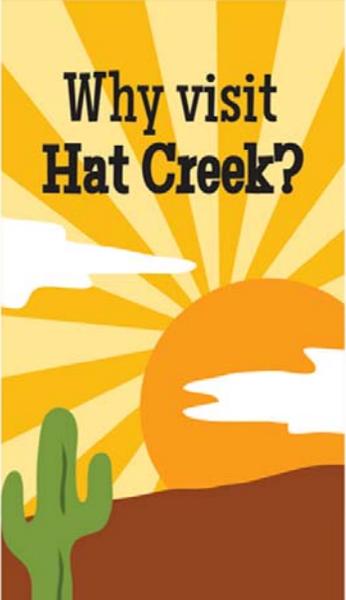

Check out the incredible Sights!

See the Historic Rio Grande River from Horseback

Nature Walks Daily

or just sit back and watch the world go by from the comfort of your very own authentic yet comfortable cabin.

Why visit Hat Creek?

REST!**

**Meeting at 7 pm
Bolton Train Station
November 1, 2012**

We must be ever vigilant against the threat of shady pet shop owners and shagged out parrots. There is a man that can accomplish this. His name is Mr. Praline. Come listen to his message at our next meeting. He is our best hope for the future!

SHOULD THE DREAM OF UNDERSEA COLONIES BECOME A REALITY?

By Ben Hellwarth

If there is any place on earth you might expect to find them—the true believers in the imminent coming of manned undersea outposts or spectacular domed colonies on the ocean floor—it would be here, in Key Largo. This first major stop along the 100-mile Overseas Highway to Key West is home to the world's only underwater hotel, the only continuously operating underwater lab and classroom, and the only undersea research base. And it is in Key Largo that you find divers like Ian Koblick, whose even tan hints at his lifetime of outdoor ventures. His hair and trademark goatee are graying, although for a septuagenarian he looks as if he takes regular dips in the Fountain of Youth. Like so many others along this steamy island chain, he's wearing shorts and a billowing Hawaiian shirt. No matter that he is seated behind a large desk in the kind of high-backed executive chair more often associated with Brooks Brothers.

"We just received funding to go forward with this project, and we're going to realize it, and it's quite incredible,"

- Bill Todd

Figure 26: Undersea.

Our Mission

The Dead Parrot Party is a new kind of political party. We are an organization that strives to protect the natural habitat of the Norwegian Blue parrot which is deep in the fjords of Norway.

This remote and beautiful habitat is essential for survival of our endangered Norwegian Blues and their lovely plumage. Populations of Norwegian Blues have been decimated in recent years due to excessive importation to pet shops and the resulting pining for their beloved and lovely homelands.

Limitations on parrot imports from Norway are of paramount importance and should be implemented as soon as humanly possible.

Integrity is important in a society. We will not tolerate shadiness and questionable business practices in a proper civilization and no, the palindrome to Bolton is NOT Ipswich. It's Notlob.

You too can save the Norwegian Blue!

News!

12/01/12:

We have new rally dates posted on the calendar. Also our esteemed Chancellor has new **blog entries** up regarding the latest news straight from the fjords.

11/21/12:

Our members have been working tirelessly to get new legislation on the regulation of pet shop owners enacted within the next 12 months. Efforts have been met with some resistance but our sources predict a victorious outcome in the end.

11/19/12:

We have a new donation page available [here!](#)

**Conservation is the key
to saving the Norwegian Blue.**

Sagittarius

November 22 - December 21

Sagittarius, the ninth sign of the zodiac, is home to the wanderers of the zodiac. It's not a mindless ramble for these folks, either. They are the truth-seekers, and the best way for them to do this is to hit the road, talk to others and get some answers one way or another.

You see life as a challenge, but also as a grand adventure in which you must play your part with no fear.

You love freedom, and this applies to relationships, your family situation and your work; you hate anyone tying you down. It's as if you're Peter Pan and want to stay forever young and free.

Figure 29: Sagittarius_Poster.
