Requested Grant Amount / Project Description	
All information for the project must fit into the space provided below. The review committee will not consider attachments.	
Dollar Amount Requested May Not Exceed \$470 x Number of Acres Proposed For Treatment	
Dollar Amount Requested	\$1880.00
Will this Project be conducted as a Pass-Through Grant?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Provide a brief overview of the project and the project area. (If applying for a fuels reduction project, identify vegetation types)	
<p>Two residences comprising 7.64 acres. The area is thick stands of tall, thin lodge pole with a few ponderosa and a few owner planted spruce and firs. The Jeney residence did thinning under WUI grants in prior years, but is in need of second stage thinning. The Binning residence has not done thinning in prior years, and now has a stand of dead lodge pole in front of the house. The three acres between the two residences has had minimal thinning, but is now thick stands of lodge pole along Willies Lane, with dying beetle infected trees on the opposite side. Both homeowners are committed to the removal of dead/dying trees, thinning of thick lodge pole stands, and the expansion of defensible space around both homes and out buildings.</p> <p>Both homeowners request that the CSFS provide recommendations for improved defensible space and proper thinning.</p>	

Scope of Work / Project Timeline

All information for the project must fit into the space provided below. Attachments will not be considered by the review committee.

Provide a brief scope of work that clearly describes how grant funds will be spent. (This should be more specific than the project description)

- 4 Both homeowners will contribute \$1000 in dollars and/or labor. Both homeowners have identified two acres on their properties (total of 4 acres) for this project. Binning has identified the acre surrounding the house and storage shed to remove standing-dead, and to create defensible space around the house running from the southeast to the northwest. The other acre is an acre strip along Willies Lane running from the Binning-Jeney property line to the acre containing the Binning residence. Jeney has identified the two acres from the Binning-Jeney property line to the northeast, which includes the garage, storage shed and house. The grant will be used to further the work on the four acres. Work will be contracted to Beaver Envy to cut trees and remove slash to the Gilpin slash drop site. The Jeney's will provide a total of 20 hours of labor to assist with dragging of slash to trucks for removal.

Describe all planned long-term maintenance (grant funded or other).

The project on the identified 4 acres is the work to be done in the fall of 2010 and spring of 2011. Both homeowners will continue work on additional acreage in 2011. As trees grow and encroach on each other, secondary stage thinning will be done in each of the coming years.

What is the duration of this project? (check one) ☒ 1 Year ☐ 2 Years ☐ 3 Years ☐ 4 Years

Is this a continuing project from previous year/s? (check one) ☒ Yes ☐ No

Provide a timeline for the project

This project is for completion by the first half of 2011. With this grant, project work will be able to begin in August, 2010.

Interagency Collaboration

Specify the private, local, tribal, county, state, federal and/or non-governmental (501c3) organizations that will contribute to or participate in the completion of this project. Describe briefly the contributions each partner will make (i.e. – donating time/equipment, funding, etc.).
