PARTICIPATION IN FS PROGRAMS IS OPEN TO ALL ELIGIBLE APPLICANTS WITHOUT REGARD TO RACE, COLOR, RELIGION, NATIONAL ORIGIN, AGE, SEX, MARITAL STATUS, MENTAL OR PHYSICAL HANDICAP.

April 24, 1993

Rudy Harburg
1020 Mapleton
Boulder, CO 80302

Dear Rudy:

Your trees arrived at my office on April 8th. I have been holding them in the lath house ever since.

I could deliver them if you want; just call and tell me where. Also, you could pick them up; give me several days' warning so I can measure out your weed barrier. I am usually in my office from 8:00 to 8:30 each morning. That would be a good time to call.

The sooner these seedlings are planted, the better survival will be. Also, if you do not get them planted before the practice expiration date (June 15, 1993), you will lose the cost-sharing money, as well as eligibility for future cost-sharing (You can still get cost-sharing with a pre-paid planting agreement with CSFS, but you won't be able to get it for doing the work yourself.). Time is of the essence.

If you are unable to complete the work, and need help, CSFS can do it. Planting would cost \$217.00 and weed barrier application would cost \$220.00.

Please call; we need to get strated.

Sincerely,

Douglas J. Stevenson

(303) 442-0428

Dear Jean:

I was just going through my files and discovered that Rudy Harburg's cost-sharing deadline was June 15, 1993, almost a year ago. He has not completed the work as of yesterday, April 26, 1994. Specifically, most of the trees that were supposed to be treated with weed barrier in last year's maintenance operation, were not treated. Also, gaps that were supposed to be planted with seedlings, were not planted.

I am terminating the practice. The money (\$553) should be reallocated.

If you have any questions, please call.

Sincerely,

Douglas J. Stevenson

January 4, 1993

Rudy Harburg
1020 Mapleton Avenue
Boulder, CO 80304

Dear Rudy:

The cost-sharing dead-line this year has been moved up to January 15th. We need to get the paperwork done if you are going to use cost-sharing money this year.

Enclosed are three different proposals for how to go about maintaining the planting.

Option I: This is the minimum maintenance you can do without getting Uncle Sam worried that perhaps you haven't kept up your end of the bargain. Fourteen more pines died over the winter, making a total of 69 replacements needed. Also, many trees were never mulched and winds have carried some mulch away. 110 trees will need plastic mulch.

Option II: This assumes that the pine row is being maintained under Option I. In the example, Rocky Mountain junipers replace Russian-olives called for in the plan. This option treats these two rows as if they were entirely new plantings that had never been cost-shared before. The advantage of this option is that it permits three additional maintenance practices under cost-sharing, while Option III only permits two. The disadvantage is that this option costs more to install.

Option III: The combines Options I & II. It treats the juniper and plum rows as if they had been cost-shared before. By combining the maintenance into one practice, the surplus cost-sharing money from the pine row can be applied to the other rows. The advantage of this option is that it costs less than the other two options. The disadvantage is that only two additional maintenance practices can be cost-shared.

I would choose Option III. If we do a good job, we won't need a third maintenance practice and this one gives the best financial result.

If you can complete the job to standard, doing the work yourself produces the lowest out-of-pocket cost. I imagine that, having done some of this work, you might want CSFS to do it. Another possibility is that you work with my crew as time allows and I reduce the labor charge accordingly. The cost-sharing program will consider your labor as a qualifying expense.

Please call. We need to get together to decide what to do so you can get signed up before January 15th.

Sincerely,

Douglas J. Stevenson

1993 TREATMENT

HARBURG WINDBREAK MAINTENANCE

(PINE ROW ONLY)
(MINIMUM REQUIRED MAINTENANCE)
(OPTION I)

The following maintenance work is needed on the ponderosa pine windbreak cost-shared under the Stewardship Incentives Program on the Rudy Harburg property in 1992. This is the minimum treatment needed to remain in compliance with agreements already made and for which cost-sharing has already been paid.

At LANDOWNER's option, the plum and Russian-olive rows may be deleted from the planting. No cost-sharing has been paid on these rows, as of January 4, 1993.

| | |
|---|---------------|
| 69 Large-pot ponderosa pines @ \$0.90 ea.: | \$ 62.10 |
| 110 6'X6' weed barrier squares @ \$2.17 ea.: | <u>238.70</u> |
| SUB-TOTAL, MATERIALS: | \$ 300.80 |
| Sales Tax (3%): | <u>9.02</u> |
| TOTAL, MATERIALS: | \$ 309.82 |
| LABOR, Plant 69 trees @ \$3.00 ea.: | 207.00 |
| LABOR, Lay Weed Barrier 110 trees @ \$2.00 ea.: | <u>220.00</u> |
| TOTAL: | \$ 736.82 |

The pine row occupies 0.8 acres.
This will be the second time that cost-sharing has been paid for planting on this row.

COST-SHARING:

| Activity | Total Cost | Cost-Share | Net Cost |
|----------------------|---------------|---------------|---------------|
| Seedlings & Planting | \$270.96 | \$176.12 | \$ 94.84 |
| Weed Barrier | <u>465.86</u> | <u>302.81</u> | <u>163.05</u> |
| TOTAL | \$736.82 | \$479.00* | \$257.89 |

Note: The cost of materials (\$309.82) is less than the amount that Stewardship will reimburse (\$479.00); if you do the work yourself, you will make \$169.18. Now that you realize how much work is involved, you may wish to have CSFS do the work, or work with us for a reduced price.

*This is not a mistake. The U.S. government doesn't add and subtract like everybody else does.

Tree purchase price assumes that no other planting is being done. Bulk rates are available if more than 450 seedlings are purchased.

1993 TREATMENT

HARBURG WINDBREAK MAINTENANCE

(PLUM AND MEDIUM-SIZED ROWS)
(TREATED AS NEW PLANTINGS)
(OPTION II)

In the plan, dated February 10, 1992, Russian-olive was recommended for the center row because Rocky Mountain juniper was not available at the time. At LANDOWNER's discretion, Russian-olive may be changed to Rocky Mountain juniper. The following cost analysis assumes that this has been done. Russian-olives would cost slightly less than Rocky Mountain junipers, but junipers give far better protection from wind.

This analysis assumes that no cost-sharing money has been paid for the plum or medium-sized rows. As of January 4, 1993, this is the case. The following treats these rows as an entirely new planting. As such, maintenance work can be cost-shared on these rows three times besides the initial installation shown below.

| | |
|--|----------------|
| 200 American plums @ \$0.361** ea.: | \$ 72.20 |
| 390 Rocky Mtn. junipers @ \$0.855** ea.: | 333.45 |
| 4545' 6'X6' Weed Barrier @ \$108.50/300': | <u>1643.78</u> |
| SUB-TOTAL, MATERIALS: | \$2049.43 |
| Sales Tax (3%): | <u>61.48</u> |
| TOTAL, MATERIALS: | \$2110.91 |
| LABOR, Plant 590 trees @ \$3.00 ea.: | 1770.00 |
| LABOR, Lay Weed Barrier 4545 feet @ \$0.333/ft.: | <u>1515.00</u> |
| TOTAL: | \$5395.91 |

**Bulk rate discount (5%) assumed.
These rows occupy 1.6 acres.

COST-SHARING:

| Activity | Total Cost | Cost-Share | Net Cost |
|----------------------|----------------|----------------|----------------|
| Seedlings & Planting | \$2187.82 | \$ 720.00 | \$1467.82 |
| Weed Barrier | <u>3208.09</u> | <u>1240.00</u> | <u>1968.09</u> |
| TOTAL | \$5395.91 | \$1600.00*3 | \$3795.91 |

If you do the work yourself, the Stewardship Program will reimburse all except \$510.91 of your costs. Again, may may wish to hire CSFS to do the work, or work with us, reducing the out-of-pocket cost.

*3 Maximum allocation is \$1000.00 per acre.

1993 TREATMENT

HARBURG WINDBREAK MAINTENANCE

(ENTIRE PLANTING)
(TREATED AS MAINTENANCE OF AN OLD PLANTING)
(OPTION III)

In the plan, dated February 10, 1992, Russian-olive was recommended for the center row because Rocky Mountain juniper was not available at the time. At LANDOWNER's discretion, Russian-olive may be changed to Rocky Mountain juniper. The following cost analysis assumes that this has been done. Russian-olives would cost slightly less than Rocky Mountain junipers, but junipers give far better protection from wind.

The following assumes that cost-sharing money has been paid for the entire planting and that this work is maintenance. In this case, this is the first maintenance work and the planting is eligible for two additional maintenance cost-sharings.

| | |
|--|----------------|
| 69 Large-pot ponderosa pines @ \$0.855** ea.: | \$ 59.00 |
| 200 American plums @ \$0.361** ea.: | 72.20 |
| 390 Rocky Mtn. junipers @ \$0.855** ea.: | 333.45 |
| 4545' 6'X6' Weed Barrier @ \$108.50/300': | <u>1643.78</u> |
| SUB-TOTAL, MATERIALS: | \$2108.43 |
| Sales Tax (3%): | <u>63.25</u> |
| TOTAL, MATERIALS: | \$2171.68 |
| LABOR, Plant 659 trees @ \$3.00 ea.: | 1977.00 |
| LABOR, Lay Weed Barrier 5205 feet @ \$0.333/ft.: | <u>1735.00</u> |
| TOTAL: | \$5883.68 |

**Bulk rate discount (5%) assumed.
These rows occupy 2.4 acres.

COST-SHARING:

| Activity | Total Cost | Cost-Share | Net Cost |
|----------------------|----------------|----------------|----------------|
| Seedlings & Planting | \$2455.59 | \$1080.00 | \$1375.59 |
| Weed Barrier | <u>3428.09</u> | <u>1860.00</u> | <u>1568.09</u> |
| TOTAL | \$5883.68 | \$2400.00*3 | \$3483.68 |

If you do the work yourself, the Stewardship Program will reimburse \$291.57 more than your out-of-pocket costs. Again, you may choose to hire CSFS to do the work, or work with us, reducing the out-of-pocket cost.

*3 Maximum allocation is \$1000.00 per acre.

MEMORANDUM

TO: Ron Gosnell

DATE: August 29, 1992

FROM: Doug Stevenson

SUBJECT: HARBURG SIP

REMARKS:

Rudy Harburg has partially completed the SIP-4 windbreak planting. He and I decided to pay him off for work completed, on the condition that he replaces 73 dead or missing ponderosas next spring. I have invited him to reapply for funding to finish the project next year, if it is available.

He has earned: \$ 620.00.

Slippage: \$1780.00.

Details are on file.

I. PERFORMANCE REPORT

This practice has been performed to the extent shown in item B12c and meets program requirements. If the practice does not meet practice specifications or if additional work is required, explain in item I.

Signature

Dear Rudy:

When I carried out the inspection for your windbreak planting, I found:

1. The plum row entirely lacked weed barrier or carpet called for in the Stewardship plan.
2. The Russian-olive row had not been planted.
3. Most ponderosa pines were not protected by either carpet or weed barrier.

For these reasons I cannot authorize payment of the entire amount of the cost-sharing.

The pine rows were sufficiently complete to make a minimum-specification-windbreak. I found:

1. The south row was 232 feet long and contained 23 trees (It should have contained 29, but several were dead.).
2. The west row was 816 feet long and contained 76 trees (It should have contained 102, but several were dead.).
3. The north row was 360 feet long and contained 20 trees (It should have contained 45, but several were dead.).
4. The east row, south end (The north end was completely dead and/or missing.), was 752 feet long and contained 73 trees (It should have contained 94, but several were dead.).

Altogether, a single-row pine windbreak 2160 feet long, containing 192 trees was planted to specifications. Allowing a 15-foot buffer strip on each side, this comes to 1.5 acres.

On the condition that the 78 dead and/or missing trees are replaced next spring, I can authorize partial payment. I recommend that you reapply for cost-sharing and complete the planting at that time, switching the Russian-olives to Rocky Mountain junipers to give better winter protection while doing so.

The following actions are taken with regard to the list of expenses you submitted (Numbers correspond with line numbers in your letter.):

1. HAND PLANT 150 R. OLIVES AT 756 28TH \$300.00
REJECTED because trees were planted at a different location than the one agreed to in the plan.
2. PROCURE USED CARPET AS WEED BARRIER FOR PONDEROSAS \$1.85/Yd
This comes to \$3.70 for a two-yard piece sufficient for one tree. DeWitt Weed Barrier was available at the time through CSFS at \$1.00/Yd, including sales tax. The reason carpet was permitted was to reduce the cost. The rate is reduced to \$1.00/Yd (\$2.00 per seedling).
3. LABOR INSTALLING CARPET \$180.00
ACCEPTED AS IS.
4. PROCURING AND INSTALLING 6' WIDE ROLLS OF COMMERCIAL WEED BARRIER \$220.00
2-6' WIDE ROLLS \$110/RL
I have the original invoice (CSFS #25387). It shows four rolls purchased at \$97.09 each, with \$2.91 each, sales tax, making \$100.00 per roll. Your invoice says that only two rolls were used. This comes to \$200.00. \$200.00 is accepted.

Line 4 also shows \$24 labor for installing weed barrier. This amount is accepted as is.

From CSFS Invoice #25345: 330 Large-pot ponderosa pines were purchased for \$297.00 (\$0.90 per tree). A 10% bulk discount was applied, reducing the cost to \$267.30 (\$0.81 per tree). A 4% sales tax was applied, bringing the final cost to \$0.8424 per tree. This brings the purchase price of the 192 trees meeting specifications to \$161.74, including sales tax.

CSFS charged \$0.40 per tree to plant these 192 trees. The labor charge, thus came to \$76.80.

The following cost-sharable expenses were, thus, incurred:

TREE PLANTING:

| | |
|----------------|--------------|
| TREE PURCHASE: | \$161.74 |
| LABOR: | <u>76.80</u> |
| TOTAL | \$238.54 |

WEED BARRIER:

| | | |
|------------------------------------|-----------------------|---------------|
| PURCHASE OF WEED BARRIER | 2 ROLLS @ \$100.00 EA | \$200.00 |
| (Amount sufficient for 100 trees.) | | |
| USED CARPET | 184 YDS @ \$1.00/YD | 184.00 |
| LABOR INSTALLING WEED BARRIER | | 24.00 |
| LABOR INSTALLING CARPET | | <u>180.00</u> |
| | | \$588.00 |

Both sub-totals are well below allowable per-acre maximums and can be accepted as they are.

| | |
|-------------------------------|-------------|
| TOTAL COST-SHARABLE EXPENSES: | \$826.54 |
| COST-SHARING RATE: | <u>0.75</u> |
| GRAND TOTAL | \$619.91 |

FRACTION ROUNDED UP: \$620.00 COST-SHARING EARNED.

The \$620.00 earned will be paid to you. You should be receiving a check in about a month. The balance (\$1780.00) will be reallocated. You should reapply next year; you are eligible for up to \$1500.00 for maintenance of this years' planting and up to \$900.00 for finishing your windbreak. I can't promise whether the money will be available, but all they can say is: "No."

If you have any questions, please call.

Sincerely,

Douglas J. Stevenson

PART 2 - ELIGIBILITY DETERMINATION - TO BE COMPLETED BY THE SERVICE FORESTER

| Check "Yes" or "No" for each: | YES | NO |
|--|-----|----|
| 18. The practice requested was determined to be needed and practical (from AD-862). | X | |
| 19. The application meets all explicit eligibility criteria and is eligible for cost-sharing at this time because it is higher priority and ample funds are available. ("No" should be checked when eligible applications are not approved because of priorities, or ample funds are not available.) | X | |
| 20. Other (explain) | | |

ELIGIBLE ☒ INELIGIBLE ☐ →

An INELIGIBLE determination is based on the following from item(s) 6-15 or 18-20 that are checked "No". _____ (Note: Service Foresters have the authority to make determinations for items 6-15 regardless of ASCS's recommendation.)

(Enter numbers)

authority to make determinations for items 6-15 regardless of ASCS's recommendation.)
