Requested Grant Amount / Project Description All information for the project must fit into the space provided below. The review committee will not consider attachments. Dollar Amount Requested \$ 25,000.00 Projected Match \$ 50,000.00 Will this Project be conducted as a Pass-Through Grant? YES

Provide a brief overview of the project and the project area. (If applying for a fuels reduction project, identify vegetation types)

Based on our recently completed CWPP, the Sugarloaf Fire Protection District has identified our 4 highest risk communities. All project areas are in the Lower Montane ecosystem, with predominately Ponderosa Pine monoculture closed canopy and doghair, but with some small areas of mixed conifer including Douglas Fir and Rocky Mountain Juniper. None of the currently identified communities are high enough in elevation to have any Lodgepole Pine. All areas are classic WUI – homes built mid-slope in dense vegetation and fuel loading, with poor access and steep slopes. Approximately 150 homes are in the project areas. All project areas sit above regions that have historically seen a large amount of ignitions (the Tall Timbers neighborhood is above Hwy 119 for example).

After several community meetings, consensus has been reached to fund the projects 1/3 from homeowner contributions, 1/3 from Fire Department funds and only 1/3 from potential FRFTP funding.

This is the first time in almost a decade that the Sugarloaf community has been able to come together to contemplate landscape scale, community funded fuels reduction.

The Betasso community work would directly protect both the Betasso Water Treatment Plant as well as adjoining nature preserve.

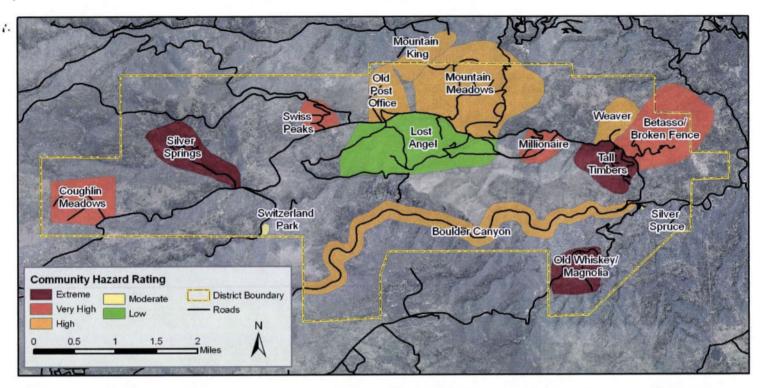

Scope of Work / Project Timeline All information for the project must fit into the space provided below. Attachments will not be considered by the review committee.
Provide a brief scope of work that clearly describes how grant funds will be spent. (This should be more specific than the project description) Each community project is built on the same three priority design: 1) Completion of Defensible Space around all homes; 2) Targeting thinning along roadways to provide badly needed protection of emergency ingress and egress routes for homeowners and fire fighters (as well as fuels removal from around power lines, another large source of historic ignitions; 3) Create a Shaded Fuel Break based on the fire behavior modeling in the CWPP to protect these mid slope communities from a down hill ignition. Grant funds will be spent to defer one third of the cost of the D-Space work for participating homeowners as well as one third of the cost of the egress and fuel break projects for the communities. All work is proposed to be done by the Four Mile Fire Department's Mitigation Crew. The Mit Crew completed a project very similar to the ones proposed, last summer in the Poorman/Dry Gulch community, cutting a 55 acre shaded fuel break and 7 defensible spaces in the period of April, June and July of 2008.
Describe all planned long-term maintenance (grant funded or other). The Sugarloaf Fire Protection District will follow up with continued community outreach for homeowners to continue their yearly mitigation tasks (such as mowing grass, cleaning gutters, etc.). We also plan to implement a 5 year evaluation of the CWPP and reassess our highest risk communities.
What is the duration of this project? (check one) 🛛 One Year 🗌 Two Years
Is this a continuing project from previous year/s? (check one) Yes No
Provide a timeline for the project Project is slated to begin in the early summer of 2009 and be completed by the end of 2009. The expectation is that the bulk of the work will be done in June, July and August of 2009. Community outreach, coordination and planning has already begun.
Interagency Collaboration
Specify the private, local, tribal, county, state, federal and/or non-governmental (501c3) organizations that will contribute to or participate in the completion of this project. Describe briefly the contribution each partner will make (i.e. – donating time/equipment, funding, etc.). Consultation and prescriptions with Bob Bundy at CSFS Project management and leadership from the Sugarloaf Fire Protection District Community outreach and organization by Sugarloaf Inc., local citizens association Notification and coordination with USFS
Community Wildfire Protection Plan (CWPP)
Does this community have a wildfire protection plan that follows the Healthy Forest Restoration Act CWPP guidelines? (check one) yes no
Is this project part of the plan? (check one) yes no

Financial Assistance Program Cooperative Match Project

To be conducted by:

Sugar Loaf Fire Protection District (SLFD)

Project Number: 5-36709 – 06

Estimated Project Cost: \$75,000

Funding provided by CSFS: \$25,000

Minimum Recipient Match: \$25,000

Project to be completed by: 9-30-2010

Based on the strength of the application submitted SLFD, the Colorado State Forest Service is providing funding in the amount up to but not exceeding \$25,000 to accomplish the project described in the attached scope of work.

As the cooperator, SLFD, will be reimbursed for actual (hard dollars spent) costs incurred in implementing the project up to the amount listed above once the following requirements are met:

- A. Complete work as described in "Attachment A" (scope of work).
- B. Provide documentation that project funds have been matched at a minimum ratio of 1:1.
- C. Complete and submit through the local CSFS District Office periodic Grant Report(s)/Reimbursement Request(s) using the form provided in "Attachment B", as needed, and a Final Report that provides details on expenditures and accomplishments as a result of this project. Submission to:

CSFS-Boulder District

5625 Ute Highway

Longmont, CO 80503

D. Certify that neither the cooperator nor any principals represented herein are presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from participation in this transaction by any federal department or agency.

This funding will remain available until September 30, 2010. There will be no extensions provided due to federal fund grant requirements.

As a representative of the cooperator, I have read and understand the conditions of participating in this cooperative match project.

EXHIBIT B CSFS GRANT REPORT/REIMBURSEMENT REQUEST

In order to receive reimbursement, you <u>must</u> provide documentation supporting your costs and corresponding match. Complete Form D and submit it with your request for reimbursement. Reimbursement requests must be accompanied by receipts for actual costs (out of pocket expenses) incurred by the recipient. Other costs and matching funds incurred by the applicant and/or donated by other resources includes expenses for goods, services and labor necessary for project implementation. You may request partial reimbursement as you incur expenses and have corresponding match.

GRANT REPORT/REIMBURSEMENT REQUEST COMPETITIVE GRANTS

Project Number: 5-36709-06 - 80

In order to receive reimbursement, you <u>must</u> provide documentation supporting your expenditures covered by this initial disbursement and the corresponding match. You may request reimbursement on a monthly basis as you incur expenses, however the final 10% of the award amount will not be released until the final closeout report is received and accepted. Reimbursement requests must be accompanied by receipts for costs incurred and documentation of matching funds. Federal Funds <u>cannot</u> be used as sources for meeting the cost sharing (matching) provisions. <u>Matching Funds are expenses for goods, services and labor necessary for project implementation and incurred by the applicant which are not reimbursed with Federal Funds.</u>

Gary Kugel 2405A Santa Fe Drive Longmont, CO 80504 March 19, 2012

Bryan Baer US Forest Service 5625 Ute Highway Longmont, CO 80503

Hi Bryan:

Per our conversation on the phone I am enclosing the invoices from Black Diamond Excavating which total \$5742.00 paid to them for fire mitigation on Lots 29, 30, and 31. Tall Timbers 2nd Edition.

I also paid \$2000 to David Laskey of Daylight Again Fire Mitigation, check #1218, Wells Fargo Bank, NA, dated Oct 28, 2010, for clearing on Lot 28, Tall Timbers 2nd Addition. I have no invoice for this transaction, only the electronic statement of my bank for the month that he cashed the check. I have not included that statement because of the other proprietary information on the page; but I can send it along if you need it.

The total money that I paid the two companies that did mitigation on my 4 lots is \$7742.00

If you have any questions, my phone is 303 772 2370. I no longer own Lots 28 and 29 on Douglas Court.. My new address is above in Longmont.

Thanks,

Gary Kugel

Han Kugel

Subject: yesterday

Pidgeon,

I hope I got everything to your satisfaction. I also removed the bits of old fence wire. I laid them next to the dumpster.

\$70 for 1 3/4 hours work, 4/9/12, cutting and removing tree material at Pidgeon Johnson's property, 28 Silver Spruce, Boulder, CO.
CB Bassity

Thanks, CB

GRANT till Sept 2012

For fire mitigation tree trimming and removal services on Pidgeon (Martha) Johnson's two-acre property at 28 Silver Spuce, Boulder, CO, March 15, 16, 17, 19, & 20, 2012. 26.25 hours @ \$40/hour = \$1,050. CB Bassity, sole operator.

Acre completed - little over 2 acres. Marilyn Hartig \$420/acre. Grant 1/3 match 1/3 SLVFD.

GRANT REPORT/REIMBURSEMENT REQUEST

COMPETITIVE GRANTS

Project Number: 5-36709-06

In order to receive reimbursement, you must provide documentation supporting your expenditures covered by this initial disbursement and the corresponding match. You may request reimbursement on a monthly basis as you incur expenses, however the final 10% of the award amount will not be released until the final closeout report is received and accepted. Reimbursement requests must be accompanied by receipts for costs incurred and documentation of matching funds. Federal Funds cannot be used as sources for meeting the cost sharing (matching) provisions. Matching Funds are expenses for goods, services and labor necessary for project implementation and incurred by the applicant which are not reimbursed with Federal Funds.

EXHIBIT B

GRANT REPORT/REIMBURSEMENT REQUEST

COMPETITIVE GRANTS

Project Number: 5-36709-06

In order to receive reimbursement, you must provide documentation supporting your expenditures covered by this initial disbursement and the corresponding match. You may request reimbursement on a monthly basis as you incur expenses, however the final 10% of the award amount will not be released until the final closeout report is received and accepted. Reimbursement requests must be accompanied by receipts for costs incurred and documentation of matching funds. Federal Funds cannot be used as sources for meeting the cost sharing (matching) provisions. Matching Funds are expenses for goods, services and labor necessary for project implementation and incurred by the applicant which are not reimbursed with Federal Funds.

To: Cc: Subject: Bob Bundy; cmlahue@yahoo.com benpfohl@lamar.colostate.edu RE: Sugarloaf Front Range Grant

12/18/09

Miles.

David Lasky called yesterday-pretty spun up about the politics of the SLFPD Board regarding mitigation. I got the sense that he and his company wasn't so much interested in getting the contract to perform the work, but angling that the Board form a mitigation subcommittee to ensure that the grant funding be spent in the right place(s), not where a majority of board members live. I can't argue too much about that.

My message to him was that the community has a solid CWPP, listing the very high and high priority treatment areas; if your board members happen to live in these areas, that's ok. Choose your communities based upon the scientific data; then prioritize those communities where there is a greater chance of success in implementing those treatments.

He felt that the mitigation committee should have a place for CSFS representation and perhaps adjacent partners, such as BOPOS and USFS.

CSFS will certainly engage the process to the best of our limited ability. If a committee is formed, keep me in the loop and we'll do our best to assist you. I hope that Bob's temporary replacement is on board sooner than later so that we can assist in project setup and layout.

Thanks

Allen Owen, CF District Forester CSFS Boulder 5625 Ute Highway Longmont, CO 80503 303-823-5774 303-823-5768

Subject: Sugarloaf Front Range Grant

Miles,

I've attached the application and award agreement for the Sugarloaf grant. The money is encumbered to Sugarloaf, and can be paid out as the "Project Notice" stipulations are met. I've also attached a proposal area for Tall Timbers. This was just a proposal to show a possibility for treatment. The grant is flexible for the communities listed in the application. The grant isn't designed for doing a lot of scattered D-spaces. It is supposed to focus more on shaded fuel breaks, linked D-spaces, and/or thinning that benefits a community as a whole.

The CSFS district will be hiring a replacement for my position by the end of February. At that time, the new forester will be able to assist with organizing and setting up a project. If you have any questions in the meantime, feel free to contact Allen. Allen probably won't have time to help out much regarding community organizing or project setup. As the new forester is on board, this could be one of his/her primary responsibilities.

Bob Bundy ARRA Project Manager

11 is good.

From: "Baer, Bryan" < Bryan. Baer@colostate.edu> To: Miles La Hue <cmlahue@vahoo.com> Sent: Sun, May 16, 2010 11:57:23 AM Subject: Re: getting back to you

Does 11 work then? Or later than that? I have pretty good flexability tomorrow, so whenever works for me.

On May 16, 2010, at 11:42 AM, "Miles La Hue" <cmlahue@yahoo.com<mailto:cmlahue@yahoo.com<>> wrote:

I hear you on that. We can discuss things in-depth when we meet. As I work at figuring out this new role of mine, I find it easier to help my clients more as I get more and more familiar. That's what I'm doing here...just letting you know what I have figured out as I progress so I can help your chances of sucess when it comes to this grant. We need to keep in mind that niether of us were the originators of this grant. I believe Dave Lasky was acting as you and Bob Bundy was me. The two of us took it on from there, so let's work together to get accomplished what needs to be

Monday sounds good. How about late morning, say 10 or 11? Really any time that day will work. If it's possible, can we meet at the same sugarloaf fire station we met at before? That way we can easily get to areas of concern, if need be. Also, maybe we can start it off just the two of us and Dave Eberheart can join slightly later. That way we have a moment to address everything we need to, that doesn't necessarily concern Dave. Just a thought. I look forward to getting together and working towards the sucess of this opportunity. Let me know what works

Monday works, name a time. I have no idea of the responsibilities that I apparently have, I thought you would have told those to me before Mark started cutting given that this grant is a first for our district, given it was done almost after the fact, and given the fact I am no mitigator. Mark only cut 13 acres plus a little at the entry of the road. Lets hash this out, but realize I am the only one that is not getting paid a cent for this. My expertise is limited so the responsibilities that were raised by whomever ought to keep that in mind. Frankly, this expectation that I have fallen short of really seems like a shortcoming on your part since we have met and I am readily accessible via phone and email and it is I who has continued to be in touch with you not visa versa. Bryan, you need to help this process, you are the only one that knows what the grant expects, you are the professional not I.

Regards, 303 440 5784

Subject: RE: getting back to you

Right now I have this coming Monday (May 17) open. Other than that, I'm fairly booked all of next week. Given the short notice, if we cannot do it on Monday, we could try to shoot for Tuesday the 25th. I'll be checking my email all weekend, so just let me know what you think, and if Monday's the only day, I'll be there. Just let me know where you'd like to meet.

I also want to discuss the work done by Mark Morgan on Peter Braam's property when we meet. There was a level of concern raised in which it was unclear if you've been made fully aware of what your responsibilities are, being the "point of contact/representative" for Sugarloaf as it pertains to this grant. There's always that level of uncertainty when it come to these "first-time" grants. I just want to make some time to hash those details out, so you know what we're expecting out of you, and you know what to expect out of us. Just another precaution I want to take to make sure you have the greatest potential for success throughout.

FRFTP GRANT - SUGARCONF - \$ 85,000.00 PROJECT (Estimated)

\$25,000 > Grant Match

-\$25,000 > FPD match -\$25,000 > Landowner's Metch -\$10,000 -> In Kind Match Estimated \$ 1,400.00/Acre for Treatment - Grant (\$25,000.00) pays \$417/Acre - 60 Acres need to be trested
- Broom -> 10.9 Acres -> × 49 Acres
- Work needs to be completed to CSFS standards for it to be eligible for cost-share reimburg 4 High Priority Areas - Tall Timbers - Old Whiskey - Millionzire - Betasso

Financial Assistance Program Cooperative Match Project

To be conducted by:

Sugar Loaf Fire Protection District (SLFD)

Project Number: 5-36709 – 06

Estimated Project Cost: \$75,000

Funding provided by CSFS: \$25,000

Minimum Recipient Match: \$25,000

Project to be completed by: 9-30-2010

Based on the strength of the application submitted SLFD, the Colorado State Forest Service is providing funding in the amount up to but not exceeding \$25,000 to accomplish the project described in the attached scope of work.

As the cooperator, SLFD, will be reimbursed for actual (hard dollars spent) costs incurred in implementing the project up to the amount listed above once the following requirements are met:

- A. Complete work as described in "Attachment A" (scope of work).
- B. Provide documentation that project funds have been matched at a minimum ratio of 1:1.
- C. Complete and submit through the local CSFS District Office periodic Grant Report(s)/Reimbursement Request(s) using the form provided in "Attachment B", as needed, and a Final Report that provides details on expenditures and accomplishments as a result of this project. Submission to:

CSFS-Boulder District

5625 Ute Highway

Longmont, CO 80503

D. Certify that neither the cooperator nor any principals represented herein are presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from participation in this transaction by any federal department or agency.

This funding will remain available until September 30, 2010. There will be no extensions provided due to federal fund grant requirements.

As a representative of the cooperator, I have read and understand the conditions of participating in

Date: 10/01/09

this cooperative match project.

EXHIBIT A TO SUBAWARD G-5-36709 - 06 SCOPE OF WORK

CSFS 2009: Sugar Loaf Fire Protection District (SLFD)

Work to be completed: This grant will cover up to half of the cost of the Sugar Loaf Community Fuels Reduction grant project. Approximately 60 acres of forest have been identified for treatment. This treatment includes fuels reduction, creation of escape routes, fuel breaks, and linked defensible spaces.

Milestone dates: SLFD has identified four communities in the eastern half of the fire district. Implementation will begin upon approval of this Scope of Work. The project will run through September 2010. The fire district will periodically submit an "Attachment B: Grant Report/Reimbursement Request" to the local CSFS.

Standards and Guidelines: Project work will meet the standards identified in the CWPP, CSFS "Fuelbreak Guidelines for Forested Subdivisions & Communities", and CSFS "Creating Wildfire-Defensible Zones" fact sheet. The CSFS is available, if necessary, to assist with initial project setup by assisting with community meetings, flagging treatment boundaries, writing a basic scope of work, and marking removal trees in demonstration and highly visible areas. The SLFD is responsible for determining implementation details, communicating with the public as necessary, and ensuring the project is completed within the grant cycle. A CSFS representative will inspect the reported acreage before reimbursement approval.

All grant funds will be used as a ≤50% reimbursement for work done on this project. SLFD will initially cover the cost of implementation by using their fire crew or by paying contractor(s). Coordinated and reportable volunteer work can count toward the grant as well, as long as hard dollar match requirements are met. SLFD will then submit documentation of the work for reimbursement. The limit for CSFS grant matching contribution is set at \$417 per acre. When costs for treatment are above \$834 per acre, SLFD and landowners will cover the excess costs for the project.

Project Period: August 29, 2009 through November 30, 2010

Sub-award Amount: \$25,000 Minimum Cooperator Match: \$25,000

Deliverables: A minimum of 60 acres of forest treatment done to CSFS standards. This consists of fuels reduction on shaded fuel breaks, the creation of safer escape routes, and linked defensible spaces.

Project Types: Assessment/Scoping, Homeowner/Community Action, Information/Education, Implementation/Treatment, and Monitoring/Evaluation.

All work completed under this subaward must be certified as meeting minimum Colorado State Forest Service standards prior to any reimbursement being made to the subawardee. Attachment B to the subaward entitled "Attachment B, Grant Report/Reimbursement Request, WSFM Competitive Grants" will be the document used to both request reimbursement and to certify that work has been completed to minimum standards.
