SUBJECT: Larimer County Final Grant Report

Award # 7570-048

Attached is Larimer County's final report for Grant 7570-048 for 2003. I have not had time to review the package in it's entirety right now, but thought it best to forward it to you now.

I made extra copies of the 901's and forwarded to Kathy Frasier.

Our partnership with Larimer County continues to be strong. We are working on cooperative projects for 2004 that will continue to reduce wildfire hazards.

If you have any questions about the report or what was done, or what is planned in the future, let me know.

ATTACHMENT D

GRANT REPORT/REIMBURSEMENT REQUEST 2003 WSFM COMPETITIVE GRANTS

Upon execution of this award you will receive 25% of the award amount or \$10,000, whichever is less. In order to receive any further reimbursement, you <u>must</u> provide documentation supporting your expenditures covered by this initial disbursement and the corresponding match. You may request reimbursement for the remaining amount of the project award on a monthly basis as you incur expenses, however the final 25% of the award amount will not be released until the final closeout report is received and accepted. Reimbursement requests must be accompanied by receipts for costs incurred and documentation of matching funds. Federal Funds <u>cannot</u> be used as sources for meeting the cost sharing (matching) provisions. <u>Matching Funds are expenses for goods, services and labor necessary for project implementation and incurred by the applicant which are not reimbursed with Federal Funds.</u>

Thanks Tony

Memorandum

To: Mike Babler

From: Tony Simons, Larimer County Wildfire Safety Specialist

Subject: Grant Extension

Date: August 20, 2003

Mike,

Larimer County Wildfire Safety Program requests a grant extension on grant #03-7570-048 until 12/31/02. This request is based on success of the 2001, 2002 and 2003 Slash Disposal Program, recent fire activity, ongoing projects, time constraints regarding contractors, homeowners/landowners, plus receiving the first installment of the grant on August 14, 2003.

Background

The 2003 Slash Disposal Program was expanded to allow the County to provide citizens an economical and efficient was to dispose of the slash generated from the implementation of FireWise techniques. Disposal option available to the public include community collections sites, where slash collected was either burned or chipped, on site chipping, 50/50 cost share opportunities, community projects and FireWise demonstration sites.

Projects -- completed and pending to date

Community Collection Sites

Rist Canyon Cedar Park/Cedar springs Estes Park Sites Closing Mid October

50/50 Cost Share with Landowners

8 Landowners signed contracts 2 Completed

Community Projects

Windcliff Estates Glacier View Thunder Mountain

Community Burn Piles

Glacier View Crystal lakes Livermore Big Elk Meadows

Larimer County Road and Bridge Brush Crew-Seasonal

62 miles access improvement and Fuel break construction within the Wildfire Hazard Area of Larimer County.

Summary

Again the Larimer County Wildfire Safety Program requests a time extension, until 12/31/03 To ensure completion of the work on-going and scheduled. This extension will ensure the 2003 Slash Disposal Program a success and assist in reducing the wildfire danger through Larimer County.

Thank You.

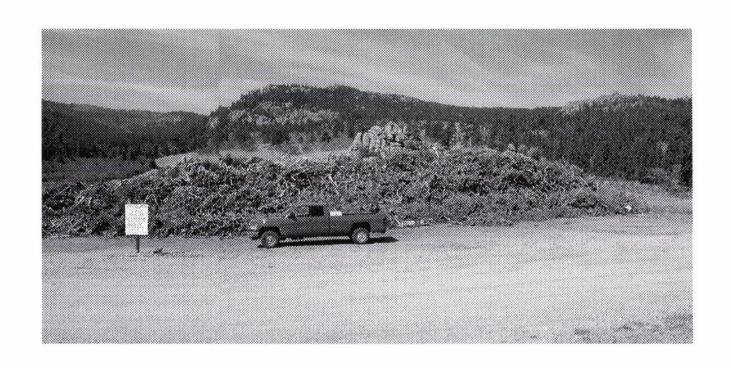

2003 Wildland Urban Interface Grant Program

Memorandum

To: Rich Homann

From: Tony Simons, Larimer County Wildfire Safety Specialist

Subject: 2003 Wildland Urban Interface Grant

Date: 09/06/02

Rich,

This memo is to briefly update you on Larimer County's Fire Plan and to recap the success of the 2002 County's Slash Disposal Program and how future grants will be incorporated into the County Fire Plan and continue making Larimer County more FireWise.

Larimer County has implemented a task force to develop a County Fire Plan consisting of representation of all fire agencies plus members of the Board of County Commissioners. Multiple meetings have been held and a mission statement, management objectives and strategies for these objectives have been outlined. The 2003 Wildland Urban Interface Grant proposal submitted outlines county wide projects that fall within the developed management strategies of Larimer County's Fire Plan. This grant proposal, targets providing citizens an economical means of slash disposal and focuses on community mitigation projects.

The Slash Disposal Program has been in place for three years and has expanded and become more successful each year. In 2002 it is estimated the over 35,000 cubic yards of slash will be collected, treating over 600 homes and properties. The addition of the Wildfire Safety Crew has be very successful assisting organizations and homeowners associations with community mitigation projects. Currently, the Crew is working with Glacier View Fire Department on a project throughout their district that entails access improvement and the construction of over 75 defensible spaces. To date over 20,000 volunteer hours have been documented county wide yielding \$219,000 in in-kind match.

The continuation of the Slash Disposal Program combined with the FireWise education of citizens will hopefully not only reduce the fire danger around individual homes but throughout Larimer County.

Thank you for you consideration.

PROJECT DESCRIPTION

How will you mitigate the threats checked in Block 3?

Provide homeowners with economical options for slash disposal and subsidised creation of defensible spaces; plus increased educational opportunities will reduce the wildfire hazard not only around individual homes but entire communities, making Larimer County more FireWise. These activities will include: FireWise education meetings, conducting wildfire inspections, subsidized creation of defensible spaces, community collection sites, 50/50 cost share opportunities, access improvement and preparing and updating subdivision assessments.

4 Give a brief description of the project steps and activities to achieve objectives.

The 2003 Slash Disposal program will focus on community based hazard reduction projects, which will include access improvements,and subsidized creation of defensible space, plus establishing economical slash disposal options will include 50/50 cost share, and community collection sites. It is anticipated that 10 Firewise presentations will be conducted, 500 homes inspected, 100 homes will have defensible space created, over 100 miles of access improvement, and collect over 35,000 cubic yards of slash. Totaling over 1500 homes and properties will be evaluated or treated and that approximated 500 interface acres will be treated. Larimer County's Wildfire Safety Program will continue the position of Wildfire Safety Technician. This position will supervise the Wildfire Safety Crew, assist in the coordination and marketing of Larimer County's existing Slash Disposal Program. Additionally, this position will participate in FireWise Education presentations, updating and conducting subdivision assessments and conduct required and voluntary defensible space inspections.

Time-line for meeting the steps listed above. Include major milestones, accomplishments and completion date.

01/03--Market/Notify agencies, homeowners associations, homeowners of available slash disposal options and cost sharing opportunites.02/03--Schedule FireWise education meetings to promote program. 04/03--Establish collections sites and subdivision projects. 05/03--Utilize Wildfire Safety Crew to implement projects. 08/03--Contracts signed for outside contractors to chip or grind slash collected. 09/03--Complete projects.

Additional Comments

Larimer County's Slash Disposal Program was established in 2000, for the last three years the program has expanded and become more successful. In 2003 over 35,000 cubic yards of slash was collected in eleven community collection sites, treating over 500 homes. Eighteen homeowners participated in the 50/50 cost share option treating over 65 acres. Additionally,in 2003 the Slash Program expanded to include a 4 to 6 person mitigation crew that assisted six communities with fuel reduction projects. Currently the crew is working on a community-wide subsidized defensible space program with Glacier View Fire department in which over 100 homes will have defensible space created for a minimal fee to the homeowner. Ten" Are You FireWise?" educational presentations were conducted plus 3 communities scheduled defensible space inspection days in which 45 inspections were conducted. Other County Departments utilized the chipper to create fuel breaks and access improvement throughout the County. An estimated 225 miles of County roads were improved. To date over 20,000 volunteer hours were documented yielding \$219,600.00 in in-kind match.

Final Report

2003 National Fire Plan projects

Grant #7570-048

Larimer County Wildfire Slash Disposal and Staffing Assistance

December 2003

2003 Final Report

Background

In August 2003, Larimer County's Wildfire Safety Program was notified that it has been awarded an \$85,000 grant from the Colorado State Forest Service via National Fire plan to continue and expand Larimer County's fuels reduction program and provide funding for an assistant to the Wildfire Safety Specialist.

This fuels reduction program was designed to provide an economical means of disposal for slash generated during the implementation of FireWise techniques on private property. The additional staffing was to assist the Wildfire Safety Specialist in conducting wildfire inspections, coordinate the County's fuels reduction program, serve as chief of party during the construction demonstration sites, develop and update pre attack plans and conduct subdivision assessments..

2003 Slash Disposal Program

Disposal options were developed to provide landowners with choices that were economical and feasible. Additionally, these options were designed to have the greatest citizen participation and treat the largest number of properties. These options or choices consist of:

- Community Collection Sites—material chipped or ground
- Community Burn Sites—material burned
- 50/50 Cost Share Opportunities—up to \$1000.00

Besides establishing slash disposal sites, demonstration sites were created and expanded in public areas with high visibility. These sites provided excellent education opportunities to the public and serve as before and after examples of FireWise techniques and good forest management.

Accomplishments

In 2003 the Slash Disposal Program collected and estimated 28,500 cubic yards of slash generated from citizens implementing FireWise techniques. All 28,500 cubic yards was collected using one of the options listed above

- 3 Community Collections Sites were established collecting over 6,500 cubic yards of slash in which materials was chipped or ground.
- 4 Community Burning Sites were established collecting over 22,000 cubic yards of slash.
- 13 individuals and organizations utilized the 50/50 cost share option.

- 7 Community Projects -- access improvement, open space management, demonstration sites, and clean up days.
 - Windcliff Estates
 - Horsetooth Mountain Park
 - Thunder Mountain
 - Little Valley
 - Meadowdale Hills
 - Pinewood Springs
 - · Lady Moon Ranch
- Larimer County Road and Bridge utilized the Vermeer Chipper in treating over 176.5 lane miles—each side of the road equals one lane mile. This treatment included access improvement and fuel break construction.

Wildfire Safety Specialist--Assistance

A joint position with the Larimer County Sheriffs Department—Emergency Service was created to assist the Wildfire Safety Specialist in conducting wildfire inspections, coordination of the County's fuels reduction program, serve as chief of party during the construction demonstration sites, develop and update pre attack plans and write and implement burn plans and smoke permits. This position will not only assist the Wildfire Safety Specialist but also will provide the Emergency Services Program with an additional full time specialist.

Wildfire Safety Crew

The crew consisted of 3 to 6 seasonal positions. The primary purpose of this crew was to assist the Wildfire Safety Program and Larimer County, citizens, homeowner associations with:

- Access improvement projects
- Chipping community slash collection sites
- Community thinning projects
- Create defensible spaces
- Create Fire Wise Demonstration Sites
- Assist in the Burning of Slash Piles/

Conclusion

The 2003 Slash Disposal Program again was extremely successful and has had immediate long-term impacts on Larimer County. This is the fifth year that the program has continuously grown and it is anticipated to continue. Citizens, fire departments and

homeowners associations are already inquiring on the possibility of the program continuing in 2004 and the location of future collection sites.

Additional Information

Early in the program when it was identified that volunteer in-kind match from community collection site was needed; it was determined that it would take on average one hour to haul one cubic yard of slash to a collection site. Included in this estimate is the time required to cut the vegetation, load it in a truck, drive to a collection site and then unload the material

In-Kind

The 2003 Wildfire Safety Program recorded in-kind match:

Larimer County Projects Road and Bridge	\$132,645.00
Slash Collection Sites	\$75,920.00
50/50 Cost Share Agreements	\$7,395.25
Burn Sites	\$256,960.00
Larimer County Wildfire Safety Program Wildfire Safety Specialist Building Inspectors Vehicles, Equipment	\$86,999.00
Projects: Windcliff Estates	\$4,884.78
Horsetooth Mountain Park	\$15,000.00
Thunder Mountain	\$2,000.00
Little Valley HOA	\$20,194.00
Meadowdale Hills	\$1,401.60
Pinewood Springs	\$2,500.00
Lady Moon Ranch	\$2,000.00
Total	\$475,254.63

Key Point

Focusing on the fuels reduction projects only, where Larimer County Citizen time was recorded. In-kind match was determined to be \$255,610.63 yielding 21,884 volunteer hours.

Thanks Larimer County Citizens.

FIRE MITIGATION FOR LITTLE VALLEY SUBDIVISION IN ESTES PARK CO. September 27, 2003

For over five years Little Valley Owners' Association Inc. (LVOA) has been providing literature from the County and the Colorado Forest Service. Much of the material came from CSU was about defensible space in terms of fire mitigation. The materials are provided for all new property owners and available to all at annual meetings.

Two years ago we offered to organize a chipping program for property owners. LVOA would organize it and the property owner would pay for it. Only two property owners called after the dead line. We had failed in our first attempt for fire mitigation.

A year ago we had the Big Elk Fire and were evacuated with the smell of smoke and ashes swirling around us.

The LVOA Board members attended a meeting with Tony Simons, wild fire specialist for Larimer County, Mike Babler from the Colorado Forest Service and Scott Dorman the Fire Chief of the Estes Park Volunteer Fire Department. We discussed grants and fire mitigation. In March of 2003 LVOA attended a meeting organized by Larimer County Commissioner, Bender, on a Healthy Forest.

Information and the knowledge that we would have technical help if we needed it spurred us into a Fire Mitigation Plan for 2003.

The plan consisted of 1. Sending out the CD's made by the fire department after the big Elk fire, which had been used, for evaluation during the threat of fire. Sending information on defensible space and a sign on sheet for those wanting to take part. 2.Tony Simons of the County marked defensible space for those that wanted that service. 3. A work day was set in May with the Eagle Rock School to assist in clearing defensible space for property owners that could supervise the work on their own property. 4. Those clearing defensible space would stack wood on their property in an accessible place so LVOA could have it chipped and blown back on their property. 5. The chipping contractor was given a map of the subdivision with a list of names. This gave us a per parcel cost as well as a total cost.

This plan was mailed out in late March. Some did not understand or were leery of us actually accomplishing our goal and did not sign on. However after information began to be returned and after our annual meeting it was quite evident that most people wanted to take part. They just needed direction. Property owners were responsible for cutting and stacking their own fuel. And LVOA would pay for chipping.

We know that people pulled not only defensible space slash and umbrella fuels but also old piled up slash. The piles of fuel were many and large. Our Board decided we would not let this become a problem, as it was the deep concern of our property owners that had caused them to work so hard. It would also help clear our subdivision, which will promote safety

We plan to extend our defensible space 50 feet next year and include those who wish to sign on that did not do so in 2003.

Presented by Ima J. Matthies, President of LVOA

November 24, 2003

Tony Simons Wild Fire Safety Specialist PO Box 1190 Ft Collins, CO 80522

Dear Tony,

Enclosed is a series of "before and after" photos of our property located at 5766 Hwy 7, Estes Park, CO (Larimer County). Also enclosed is an original invoice for \$1475 from Mike's Tree Service for chipping and tree removal services we had performed during July 2003 under the 50/50 cost share program for homeowners for creation of defensible space.

I want to personally thank you for making these funds available to assist in our ongoing efforts to make our mountain home safe from wild fires. In order to stretch your funds and ensure maximum success, my family donated a considerable amount of time and effort to this project. In addition to the services indicated on the invoice, my family spent approximately 120 hours during the months of June and July 2003 stacking slash so it would be ready for the chipper. On the two days that the chipper worked on our property, we had 4-5 family members available at all times to assist the crews by carrying slash from the piles to the immediate vicinity of the chipper, where crew members actually fed the slash into the chipper. You can imagine how much more work this allowed us to complete!

We really value this program and hope it will continue to be funded in the future.

Sincerely,

Joanne Brownhill

Dear Mr. Simona

Coclosed please find on invoice for the first half of the tree clearing worken my property. Slack removal will constitute the invoice for the Ind 1/2 and should also be for 450.00 for a total work done of 900.00, Since Steve has gone hunting, he has asked that he dalay the Slash removal until later in The Fall, This recessitates my sending you two snoones on segarate dates. Ism Goping you compay me for the lat one now and then the second at a later date when Steve is done. Thompson for your help.

Sincered Darra Farson

Tony Simons Wildfire Safety Specialist

November 18, 2003

Dear Tony:

Here is the invoice from "Down to Earth, Tree/Landscape" for "Wildfire Safety Services" for work which was done October 1-2,2003. As we discussed when we met on my property (9/18/03) I hired them for 2 full days at a total cost of \$2000. I am hoping for reimbursement of \$1000.

Again, I am sorry for the delay in getting this to you. For any questions or concerns, please contact me at the above phone/email/postal address. If you cannot read the faxed invoice well enough, let me know, and I'll send a hard copy.

Thank You,

Jonathan Arzt
