Colorado State University Libraries

Bench Mark: New Library Entrance Opens

The campus community celebrated the opening of Morgan Library's entry pavilion on September 16, 1996.

Pictured here, clockwise from right:

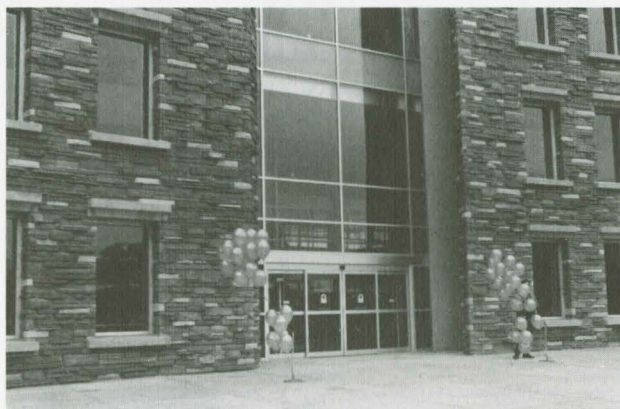

Halcyon Enssle, Building Project Manager, unlocks the front door to prepare for the celebration.

Joan Chambers, Dean of Libraries, welcomes the campus community at the new entry.

New entrance is ready for business.

Faculty, staff and students take their first look.

New Loan and Reserve Desk is ready for action.

Godden Named Interim Dean

Effective November 1, 1996, Associate Dean Irene Godden will serve as Interim Dean of Libraries.

New Instruction Librarian

Colorado State University Libraries is pleased to welcome Assistant Professor Naomi Lederer to the position of reference librarian with a specialty in library instruction for undergraduates.

In addition to working at the reference desk, Naomi will be developing both traditional and electronic library instruction materials for under-

graduates. She will be planning instruction and other services to promote active links with the K-12 population and working with various campus groups and offices involved with recruiting and retention. She will also provide support for the needs of special groups such as non-traditional students, disabled students, and diversity students.

Naomi, a Colorado native, earned an M.S. in Library and Information Science from the University of Illinois at Urbana-Champaign and then came back west for an M.A. in English Literature at Arizona State University. Naomi has a wide range of experience in teaching library research skills and expertise in designing innovative instructional materials at a number of libraries, including Auraria Library in Denver and most recently Arizona State University in Tempe. In addition, she has taught as an adjunct professor at the Graduate School of Library and Information Science at the University of Arizona.

Naomi may be reached at 491-0593 or via e-mail at nlederer@manta.colostate.edu.

*Anna DeMiller, Coordinator
Social Sciences/Humanities*

SAGE: Libraries' New On-line Catalog

The world of information is changing and so is the Libraries' online catalog. We are introducing SAGE, a system which combines the best features of an online catalog with access to whole new vistas of information.

With SAGE, author, title, keyword and subject searches to locate materials held in the Libraries are only a keystroke away – response time is instantaneous. A new feature allows exclusive searching for journals and magazines. The limit feature can narrow searches by a number of options including date, subject heading, keyword and name. Search results can be sent to an attached printer, downloaded to disk or sent to a personal e-mail address.

SAGE offers gateways to other information resources. The databases menu provides access to electronic indexes such as MEDLINE, PsycINFO, ERIC, UnCover, Magazine Index, WorldCat and many more. Gateways are available for making an interlibrary loan request and for searching reserve lists for courses. Another choice provides easy access to other library catalogs.

Access to SAGE is available at numerous terminals in Morgan Library. Remote access is available by modem at (970) 491-2222 or direct telnet to sage.colostate.edu. SAGE is available as well via the Libraries' HomePage at <http://www.colostate.edu/Depts/LTS/libhome.html>.

For further information contact the Morgan Library Reference Desk at 491-1841.

*Michael Culbertson
Sciences and Technology Librarian*

Luis Escobar, Library Technician in Government Documents, suggested the name SAGE for the Libraries' new catalog to reflect wisdom with a western flare. Luis is pictured with SAGE the owl, the system's namesake who helped promote SAGE to users in the library.

Services and Collections on the Move

Loan and Reserve staff are excited about their new desk.

This year will be a time of transition for many library services. We will keep you informed with signs and announcement boards to direct you. Please do not hesitate to ask any staff member for assistance.

Interlibrary Loan is now located in room 108 just east of the new entrance on first floor.

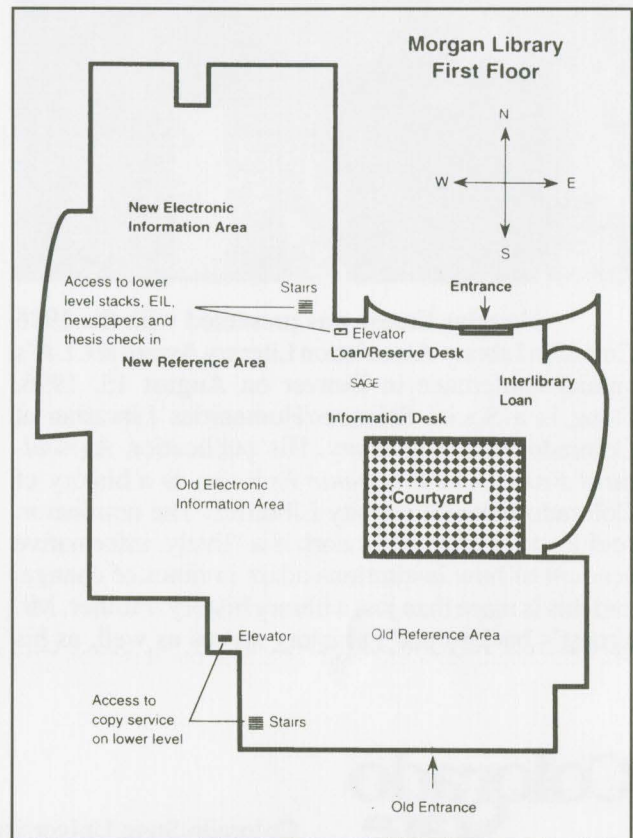

The **reference desks** and **reference collections** have moved to a temporary location in the west wing, first floor. Reference Service for Social Sciences/Humanities/Business, Sciences/Technology, and Government Documents is provided from a single desk staffed with experts from all three areas.

The **electronic information area** and **assistance desk** have also moved to the west wing just north of the new reference area. This move brings together SAGE terminals and electronic databases, including the CD-ROMs and GIS/Mapping databases that were formerly located on the second floor.

*Watch for Announcements:
Call 491-6190
or check the
Library HomePage
for up-to-date
construction information*

Lower level stack and service areas have reduced access. Follow signs to reach stack areas, the Electronic Information Lab, Gifts and Exchange, and Thesis Check In Service. The **Copy Center** is now located on the first floor south at the site of the old Loan Desk.

For additional information contact Julie Wessling at 491-1838 or jwessling@manta.colostate.edu.

New Information Desk

The Library has added a new service point. This staffed desk is located just inside the new entrance to direct you to services and collections.

Department Liaison Responsibilities

Each department or subject area listed below has a library liaison. Contact your liaison to have your questions about library services answered and to arrange for specialized instruction for classes. Liaisons also welcome your suggestions for items to add to the collection.

Colorado State Librarian Wins Literary Award

Douglas Ernest was presented with the 1996 Colorado Library Association Literary Award at CLA's annual conference in Denver on August 15, 1996. Doug is a Social Sciences/Humanities Librarian at Colorado State University. His publication *Agricultural Frontier to Electronic Frontier*, is a history of Colorado State University Libraries. The nominator, Joel Rustein, states this work is a "lively, informative account of how institutions adapt in times of change, and this is more than just a library history. Further, Mr. Ernest's background in history serves us well, as his

research into primary and secondary sources reveal thorough scholarship."

Copies of Agricultural Frontier to Electronic Frontier are available in the library or may be purchased at the Morgan Library administrative office for \$25.00 (plus tax). Proceeds will go to library development funds.

EBSCO journal database, now available on FirstSearch, offers full-text of 1000 titles. The EBSCO database can be accessed from SAGE by selecting *Data-bases* and going to *More FirstSearch Databases*.

Biosis, the electronic version of *Biological Abstracts* is available for networked access through SAGE. Coverage is 1991-1996 with quarterly updates.

For more information contact Tom Moothart at 491-1875 or tmoothart@manta.colostate.edu.

COMPENDEX database, the electronic version of the Engineering Index, is now available on the World Wide Web at **URL:**<http://cpxweb.ei.org>. For more information contact Mike Culbertson at 491-1874 or mculbertson@manta.colostate.edu.
