June 2022

**YOU'RE INVITED TO THE TERRA GRAND OPENING!**  
 June 8th to 11th

Experience the science behind food. Join us as CSU Spur opens its second building, Terra — focused on food and agriculture.

[Subscribe](#)[Past Issues](#)[Translate ▼](#)

CSU Spur is a public educational facility that focuses on engaging multigenerational students, families, and visitors around the subjects of animal and human health, food and agriculture, and water. The new facilities will allow visitors to participate and learn in several diverse ways. Spur will provide the public with labs/workshops, opportunities to watch ongoing research, converse with various career experts, and so much more!

### What is Terra?

Terra at CSU Spur is the newest building on the campus focused on food and agriculture. Upon completion, Terra will guarantee visitors multiple opportunities to participate in food and agriculture labs, engage with greenhouses and gardens, and offer summer camps for K-12 students. Terra intends to help visitors think more about where their food comes from, and how all individuals can significantly shape the future of food to mitigate global crises and insecurities.

Click [HERE](#) to view the Terra grand opening itinerary and schedule of events!

[RSVP is encouraged!](#)

- *Want to get involved in the Terra grand opening? The CSU Spur team is looking for volunteers to help out at all Terra grand opening events. [Learn more about volunteering](#) and fill out an application to get started today!*

Are you interested in working on innovative solutions to improve water conservation and reduce carbon emissions? Join us on July 6th from 6.30 pm to 8.30 pm.

The Irrigation Innovation Consortium and the Colorado Water Center are teaming up to showcase the career and educational opportunities available at CSU for folks seeking to

## SoGES announces 20 scientists from 15 departments in 2022-23 cohort of Sustainability Leadership Fellows!

The School of Global Environmental Sustainability ([SoGES](#)) at Colorado State University has announced the selection of 20 early career scientists as Sustainability Leadership Fellows for the 2022-23 academic year.

This cohort represents 15 departments and units and six colleges at CSU. The school's Sustainability Leadership Fellows program prepares future innovators and thought leaders with state-of-the-art science communication and career development training.

In one school year, fellows receive training to become leaders. The program focuses on building skills to adeptly understand, translate, adapt and communicate their

[Subscribe](#)[Past Issues](#)[Translate ▼](#)

Fellows receive training in science communication, engagement, identifying shared values, interacting with policy, building effective teams and other professional development skills to incorporate meaningful strategies into their future sustainability careers.

The SoGES program is among the first of its kind and is one of the longest running programs of its type in North America. The 2022-23 year will mark the 12th cohort and 240 fellows trained through SoGES.

The program is in a collaborative network with other higher education institutions across the U.S. and Canada to continually integrate best practices, share ideas and imbue cutting-edge training as part of the [ANGLES network: A Network for Graduate Leadership in Sustainability](#).

SoGES recognizes that CSU's future Ph.D.s and postdoctoral researchers are a primary informational resource for the complex decisions that can move the world towards a sustainable future. The Sustainability Leadership Fellows program exists to provide additional skills and expertise to these sustainability experts so they can better tackle these grand challenges in their future careers.

To learn more about the [SoGES Sustainability Leadership Fellows program](#) and the [ANGLES network](#), which is headquartered at SoGES, contact [Aleta Rudeen Weller](#), senior research and engagement officer.
