

Canvas Stadium 2017 - present

CSU's 41,000-capacity multipurpose stadium opened in 2017. It brought football games back to the heart of campus for the first time in 50 years and was designed to accommodate other engagement opportunities. The playing surface is named Sonny Lubick Field in honor of CSU's legendary football coach. Training facilities are on the west side of the stadium. The east side includes the Iris and Michael Smith Alumni Center, general classroom space, and the Collaborative for Student Achievement.
