

NEWS FROM THE FOUR MILE FIRE PROTECTION DISTRICT

2016

MITIGATION GRANT AWARDED

The Four Mile Fire Protection District has secured significant grant funding to treat more than 200 homes throughout the community for wildfire mitigation.

This grant covers 100% of the mitigation costs, with no cost to participating homeowners.

The grant provides for the creation of wildfire "defensible space" surrounding privately owned homes within the Four Mile Fire Protection District.

Please contact the Four Mile Fire Crew as soon as possible to discuss whether your home falls within the project boundary and scope of work.

- **The Four Mile Fire Crew: 303-449-3333 or fourmilefirecrew@gmail.com**
- **Include your name, address, and approximate acreage in your message**
- **Please allow one week for someone with the Fire Crew to respond**
- **Homeowners receiving free wildfire mitigation project will be selected on a first come, first served basis. Please contact the Fire Crew ASAP**

Updates and additional information will be forthcoming, but in the meantime contact the Fire Crew to discuss your eligibility and please share this information with you neighbors in the community. **This is the first time in the history of the fire protection district that wildfire mitigation has been offered completely free of charge to residents. Take advantage now!**

CALL FOR VOLUNTEER FIREFIGHTERS

The Four Mile Fire Protection District is always seeking new members to join the department. We offer a range of valuable training opportunities to ensure that our volunteers are equipped to handle the demands of serving as a firefighter.

In addition to frequent in-house trainings, certifications generally attained by firefighters include Wildland Firefighter, Structural Firefighter and Emergency Medical Responder/Technician.

Every volunteer has something to offer. Without our volunteers, there would be no fire department. There are many ways you can participate.

JOIN NOW! CONTACT CHIEF GIBSON AT 303-449-3333
