Financial Assistance Program

Cooperative Match Project

To be conducted by: **Pingree Park Campus**

Project Number:	5367520-002
Estimated Project Cost:	\$ 30,000
Funding provided by CSFS:	\$ 15,000
Minimum Recipient Match:	\$ 15,000
Project to be completed by:	September 1, 2011

Based on the strength of the application submitted by **Pingree Park Campus** the Colorado State Forest Service is providing funding in the amount up to but not exceeding **\$15,000** to accomplish the project described in the attached scope of work.

As the cooperator, **Pingree Park Campus**, will be reimbursed for actual (hard dollars spent) costs incurred in implementing the project up to the amount listed above once the following requirements are met:

- A. Complete work as described in "*Exhibit A*" (*scope of work*).
- B. Provide documentation that project funds have been matched at a minimum ratio of 1:1.

Complete and submit through the local CSFS District Office periodic Grant Report(s)/Reimbursement Request(s) using the form provided in "*Exhibit B*", as needed, and a Final Report that provides details on expenditures and accomplishments as a result of this project. Submission to:

Colorado State Forest Service
CSU-Foothills
5060 Campus Delivery
Fort Collins, CO 80523-5060

- C. Certify that neither the cooperator nor any principals represented herein are presently debarred, suspended, proposed for debarment, and declared ineligible or voluntarily excluded from participation in this transaction by any federal department or agency.

This funding will remain available until September 1, 2011. Extension is available for this project if requested prior to August 1, 2011.

As a representative of the cooperator, I have read and understand the conditions of participating in this cooperative match project.

EXHIBIT A
Financial Assistance Program
Cooperative Match Project
SCOPE OF WORK

Project Number: 5367520-002

Cooperator: Pingree Park Campus

Work to be completed: Patch cuts will be created around campus buildings and cabins in order to create defensible space around 7 campus buildings and a surrounding fuelbreak, but also to remove mountain pine beetle infested trees and susceptible trees. Efforts will focus on areas within 300 feet of roads and structures where dead trees may pose as hazards. Materials will be removed for piling and burning and/or chipped. Slash may be chipped within 100 feet of structures not to exceed a depth of 3 inches. Further away from structures slash may be chipped or piled for burning at the discretion of the Pingree Park Campus Director and CSFS.

In-kind contributions from volunteers and CSFS will include cutting trees, and processing slash and firewood. Firewood will be removed for sale by the CSU student SAF chapter. NR 220 students are expected to utilize a donated portable sawmill to mill logs created from the project and learn about forestry practices and create viable wood products. The Pingree Director may put educational signs around the campus buildings to explain the forestry work to visitors.

Grant funds will be used to hire a contractor to assist in cutting, chipping, and utilizing materials from patch-cut activities. CSFS will administer the project for Pingree Park.

Milestone dates: Project will be completed within one year of notification of grant.

Standards or Guidelines: Will meet CSFS guidelines appropriate for document.

Project Period: June 1, 2010 to September 1, 2011

Funded Amount: \$ 15,000 **Minimum cooperator match:** \$ 15,000

Deliverables: 15 acres treated

Project Types: Hazard Fuels Reduction and Information/Education

All work completed under this project must be certified as meeting minimum Colorado State Forest Service standards prior to any reimbursement being made to the cooperator. "Exhibit B, Grant Report/ Reimbursement Request, Competitive Grants" will be the document used to both request reimbursement and to certify that work has been completed to minimum standards.

Lab

- Possible lodgepole pine and/or aspen tree spade site. Plant trees least 10 feet apart.
- Put a mix of shrubs (Red osier dogwood, chokecherry, rose, wax currant) under/near powerlines. Plant shrubs in offset groups of 3-6 seedlings at least 6 feet apart.
- Other seedlings as space allows: aspen, Douglas-fir, Colorado blue spruce

South Dorm

- Possible lodgepole pine and/or aspen tree spade site. Plant trees least 10 feet apart.
- Put a mix of shrubs (Red osier dogwood, chokecherry, rose, wax currant) under/near powerlines. Plant shrubs in offset groups of 3-6 seedlings.
- Other seedlings as space allows: aspen, ponderosa pine, limber pine

Upper Student Cabins

- Put a mix of shrubs (Red osier dogwood, chokecherry, rose, wax currant) under/near powerlines. Plant shrubs in offset groups of 3-6 seedlings.
- Other seedlings as space allows: Engelmann spruce, limber pine, aspen

Lower Student Cabins

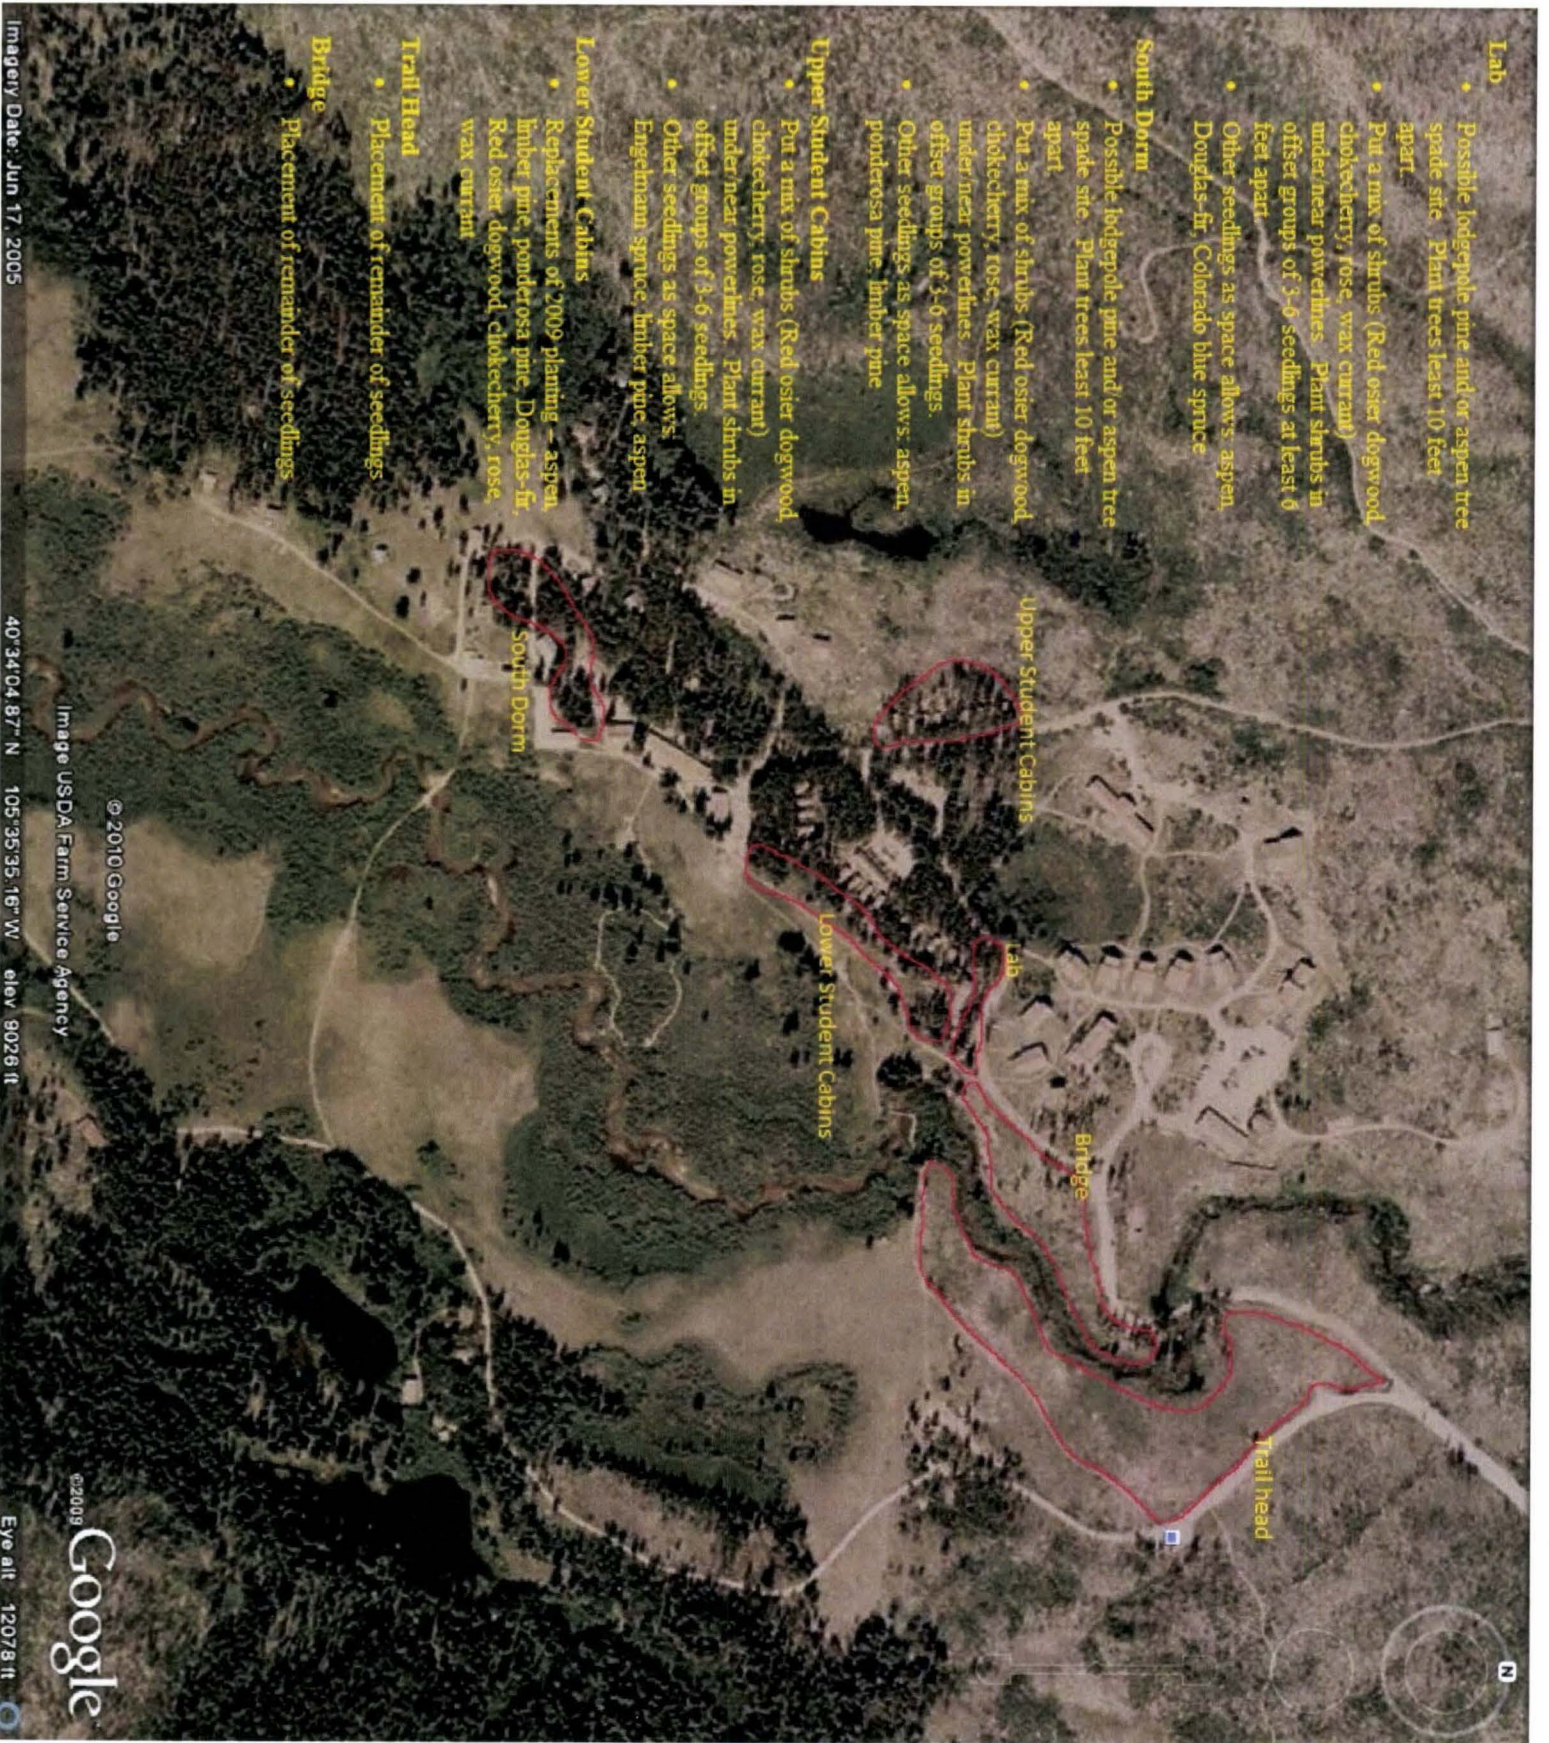

- Replacements of 2009 planting - aspen, limber pine, ponderosa pine, Douglas-fir, Red osier dogwood, chokecherry, rose, wax currant

Trail Head

- Placement of remainder of seedlings

Bridge

- Placement of remainder of seedlings

W

AS upper student cabins - really rocky

AS lab - good site - possible tree spade provision
