Ballet Barre Exercise

Dancers: Students of D321 Ballet

Set by Carol Roderick

Accompaniment by Dr. David McArthur

D321 Ballet will present a ballet barre exercise which is representative of the daily training class. This series of movements includes the basic exercises studied each day by all ballet students: plié, battement tendu and jeté, rond de jambe, battement fondu, battement frappé, adagio, and grand battement jeté. The demonstration you will see today has been pre-set and memorized by the students, and will last about 15 minutes. The standard training barre would include teacher demonstration and correction, and would last approximately 30-40 minutes.

Creation

Choreography: Devon DeSpain

Music: "Clair De Lune" by Claude Debussy performed by AMP Orchestra
