Increase in 2026 Forest Ag annual enrollment fee

This message is for Forest Ag participants.

As of July 1, 2026, the Colorado State Forest Service updated the Forest Ag annual enrollment fee to reflect an increase in the CSFS standard service rate. The service rate increased from \$93/hour to \$103/hour, and this updated rate will now be used to calculate the Forest Ag enrollment fee. Please refer to the fee chart for further details.

This adjustment is part of the CSFS's annual budget review process, which accounts for inflation, administrative support, program oversight and rising operational costs. The new enrollment fee will apply to the 2026-2027 Forest Ag season.

To remain in good standing with the [Forest Ag program](#), participants must submit required documents and the updated enrollment fee by **Oct. 1, 2026**. Failure to meet this deadline will result in not being recommended for the program.

We appreciate your understanding and commitment to sustainable forest management.
